An Act

Nov. 9, 2000

[S. 2069]

To permit the conveyance of certain land in Powell, Wyoming.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ELIMINATION OF PUBLIC PURPOSE CONDITION.

(a) FINDINGS.—Congress finds that—

(1) the parcel of land described in subsection (c) was patented to the town (now City) of Powell, Wyoming, by the United States General Land Office on October 17, 1934, to help establish a town near the Shoshone Irrigation Project;

(2) the land was patented with the condition that it be used forever for a public purpose, as required by section 3 of the Act of April 16, 1906 (43 U.S.C. 566);

(3) the land has been used to house the Powell Volunteer Fire Department, which serves the firefighting and rescue needs of a 577 square mile area in northwestern Wyoming;

(4) the land is located at the corner of U.S. Highway 14 and the main street of the business district of the City;

(5) because of the high traffic flow in the area, the location is no longer safe for the public or for the fire department;

(6) in response to population growth in the area and to National Fire Protection Association regulations, the fire department has purchased new firefighting equipment that is much larger than the existing fire hall can accommodate;

(7) accordingly, the fire department must construct a new fire department facility at a new and safe location;

(8) in order to relocate and construct a new facility, the City must sell the land to assist in financing the new fire department facility; and

(9) the Secretary of the Interior concurs that it is in the public interest to eliminate the public purpose condition to enable the land to be sold for that purpose.

(b) ELIMINATION OF CONDITION.—

(1) WAIVER.—The condition stated in section 3 of the Act of April 16, 1906 (43 U.S.C. 566), that land conveyed under that Act be used forever for a public purpose is waived insofar as the condition applies to the land described in subsection (c).

(2) INSTRUMENTS.—The Secretary of the Interior shall execute and cause to be recorded in the appropriate land records any instruments necessary to evidence the waiver made by paragraph (1).

(c) LAND DESCRIPTION.—The parcel of land described in this subsection is a parcel of land located in Powell, Park County, Wyoming, the legal description of which is as follows: Lot 23, Block 54, in the original town of Powell, according to the plat recorded in Book 82 of plats, Page 252, according to the records of the County Clerk and Recorder of Park County, State of Wyoming.

shall not permit cost sharing by a low-income older individual if the income of such individual is at or below the Federal poverty line. A State may exclude from cost sharing low-income individuals whose incomes are above the Federal poverty line. A State shall not consider any assets, savings, or other property owned by older individuals when defining low-income individuals who are exempt from cost sharing, when creating a sliding scale for the cost sharing, or when seeking contributions from any older individual.

“(4) PAYMENT RATES.—If a State permits the cost sharing described in paragraph (1), such State shall establish a sliding scale, based solely on individual income and the cost of delivering services.

“(5) REQUIREMENTS.—If a State permits the cost sharing described in paragraph (1), such State shall require each area agency on aging in the State to ensure that each service provider involved, and the area agency on aging, will—

“(A) protect the privacy and confidentiality of each older individual with respect to the declaration or nondeclaration of individual income and to any share of costs paid or unpaid by an individual;

“(G) widely distribute State created written materials in languages reflecting the reading abilities of older individuals that describe the criteria for cost sharing, the State’s sliding scale, and the mandate described under subparagraph (E).

“(6) WAIVER.—An area agency on aging may request a waiver to the State’s cost sharing policies, and the State shall approve such a waiver if the area agency on aging can adequately demonstrate that—

“(2) PLANS.—Prior to the implementation of cost sharing under subsection (a), each State and area agency on aging shall develop plans that are designed to ensure that the participation of low-income older individuals (with particular attention to low-income minority individuals and older individuals residing in rural areas) receiving services will not decrease with the implementation of the cost sharing under such subsection.

“(d) EVALUATION.—Not later than 1 year after the date of the enactment of the Older Americans Act Amendments of 2000, and annually thereafter, the Assistant Secretary shall conduct a comprehensive evaluation of practices for cost sharing to determine its impact on participation rates with particular attention to low-income and minority older individuals and older individuals residing in rural areas. If the Assistant Secretary finds that there is a disparate impact upon low-income or minority older individuals or older individuals residing in rural areas in any State or region within the State regarding the provision of services, the Assistant Secretary shall take corrective action to assure that such services are provided to all older individuals without regard to the cost sharing criteria. Deadline.

“(3) any State plan requirement described in section 307(a) if granting the waiver will promote innovations or improve service delivery and will not diminish services already provided under this Act;

“(4) any restriction under paragraph (5) of section 308(b), on the amount that may be transferred between programs carried out under part B and part C; and

“(5) the requirement of section 309(c) that certain amounts of a State allotment be used for the provision of services, with respect to a State that reduces expenditures under the State plan of the State (but only to the extent that the non-Federal share of the expenditures is not reduced below any minimum specified in section 304(d) or any other provision of this title).

TITLE II—CLINICAL RESEARCH ENHANCEMENT

Clinical Research
Enhancement
Act of 2000.

SEC. 201. SHORT TITLE.

42 USC 201 note.

This title may be cited as the “Clinical Research Enhancement Act of 2000”.

SEC. 202. FINDINGS AND PURPOSE.

42 USC 284k
note.

(a) FINDINGS.—Congress makes the following findings:

(1) Clinical research is critical to the advancement of scientific knowledge and to the development of cures and improved treatment for disease.

(2) Tremendous advances in biology are opening doors to new insights into human physiology, pathophysiology and disease, creating extraordinary opportunities for clinical research.

(3) Clinical research includes translational research which is an integral part of the research process leading to general human applications. It is the bridge between the laboratory and new methods of diagnosis, treatment, and prevention and is thus essential to progress against cancer and other diseases.

(4) The United States will spend more than \$1,200,000,000,000 on health care in 1999, but the Federal budget for health research at the National Institutes of Health was \$15,600,000,000 only 1 percent of that total.

(5) Studies at the Institute of Medicine, the National Research Council, and the National Academy of Sciences have all addressed the current problems in clinical research.

(6) The Director of the National Institutes of Health has recognized the current problems in clinical research and appointed a special panel, which recommended expanded support for existing National Institutes of Health clinical research programs and the creation of new initiatives to recruit and retain clinical investigators.

(7) The current level of training and support for health professionals in clinical research is fragmented, undervalued, and underfunded.

(8) Young investigators are not only apprentices for future positions but a crucial source of energy, enthusiasm, and ideas in the day-to-day research that constitutes the scientific enterprise. Serious questions about the future of life-science research are raised by the following:

(A) The number of young investigators applying for grants dropped by 54 percent between 1985 and 1993.

(B) The number of physicians applying for first-time National Institutes of Health research project grants fell from 1226 in 1994 to 963 in 1998, a 21 percent reduction.

(C) Newly independent life-scientists are expected to raise funds to support their new research programs and a substantial proportion of their own salaries.

(9) The following have been cited as reasons for the decline in the number of active clinical researchers, and those choosing this career path:

(A) A medical school graduate incurs an average debt of \$85,619, as reported in the Medical School Graduation Questionnaire by the Association of American Medical Colleges (AAMC).

(B) The prolonged period of clinical training required increases the accumulated debt burden.

(C) The decreasing number of mentors and role models.

(D) The perceived instability of funding from the National Institutes of Health and other Federal agencies.

(E) The almost complete absence of clinical research training in the curriculum of training grant awardees.

(F) Academic Medical Centers are experiencing difficulties in maintaining a proper environment for research in a highly competitive health care marketplace, which are compounded by the decreased willingness of third party payers to cover health care costs for patients engaged in research studies and research procedures.

(10) In 1960, general clinical research centers were established under the Office of the Director of the National Institutes of Health with an initial appropriation of \$3,000,000.

(11) Appropriations for general clinical research centers in fiscal year 1999 equaled \$200,500,000.

(12) Since the late 1960s, spending for general clinical research centers has declined from approximately 3 percent to 1 percent of the National Institutes of Health budget.

(13) In fiscal year 1999, there were 77 general clinical research centers in operation, supplying patients in the areas in which such centers operate with access to the most modern clinical research and clinical research facilities and technologies.

(b) **PURPOSE.**—It is the purpose of this title to provide additional support for and to expand clinical research programs.

SEC. 203. INCREASING THE INVOLVEMENT OF THE NATIONAL INSTITUTES OF HEALTH IN CLINICAL RESEARCH.

Part B of title IV of the Public Health Service Act (42 U.S.C. 284 et seq.) is amended by adding at the end the following:

42 USC 284k.

“SEC. 409C. CLINICAL RESEARCH.

“(a) **IN GENERAL.**—The Director of National Institutes of Health shall undertake activities to support and expand the involvement of the National Institutes of Health in clinical research.

“(b) **REQUIREMENTS.**—In carrying out subsection (a), the Director of National Institutes of Health shall—

“(1) consider the recommendations of the Division of Research Grants Clinical Research Study Group and other recommendations for enhancing clinical research; and

“(2) establish intramural and extramural clinical research fellowship programs directed specifically at medical and dental students and a continuing education clinical research training program at the National Institutes of Health.

“(c) **SUPPORT FOR THE DIVERSE NEEDS OF CLINICAL RESEARCH.**—The Director of National Institutes of Health, in cooperation with the Directors of the Institutes, Centers, and Divisions of the National Institutes of Health, shall support and expand the resources available for the diverse needs of the clinical research community, including inpatient, outpatient, and critical care clinical research.

“(d) **PEER REVIEW.**—The Director of National Institutes of Health shall establish peer review mechanisms to evaluate applications for the awards and fellowships provided for in subsection (b)(2) and section 409D. Such review mechanisms shall include

individuals who are exceptionally qualified to appraise the merits of potential clinical research training and research grant proposals.”.

42 USC 287a-4.

Twenty—First
Century
Research
Laboratories Act.

TITLE III—RESEARCH LABORATORY INFRASTRUCTURE

42 USC 201 note.

SEC. 301. SHORT TITLE.

This title may be cited as the “Twenty-First Century Research Laboratories Act”.

42 USC 287a–2
note.

SEC. 302. FINDINGS.

Congress finds that—

(1) the National Institutes of Health is the principal source of Federal funding for medical research at universities and other research institutions in the United States;

(2) the National Institutes of Health has received a substantial increase in research funding from Congress for the purpose of expanding the national investment of the United States in behavioral and biomedical research;

(3) the infrastructure of our research institutions is central to the continued leadership of the United States in medical research;

(4) as Congress increases the investment in cutting-edge basic and clinical research, it is critical that Congress also examine the current quality of the laboratories and buildings where research is being conducted, as well as the quality of laboratory equipment used in research;

(5) many of the research facilities and laboratories in the United States are outdated and inadequate;

(6) the National Science Foundation found, in a 1998 report on the status of biomedical research facilities, that over 60 percent of research-performing institutions indicated that they had an inadequate amount of medical research space;

(7) the National Science Foundation reports that academic institutions have deferred nearly \$11,000,000,000 in renovation and construction projects because of a lack of funds; and

(8) future increases in Federal funding for the National Institutes of Health must include increased support for the renovation and construction of extramural research facilities in the United States and the purchase of state-of-the-art laboratory instrumentation.

SEC. 303. BIOMEDICAL AND BEHAVIORAL RESEARCH FACILITIES.

Section 481A of the Public Health Service Act (42 U.S.C. 287a–2 et seq.) is amended to read as follows:

“SEC. 481A. BIOMEDICAL AND BEHAVIORAL RESEARCH FACILITIES.

“(a) MODERNIZATION AND CONSTRUCTION OF FACILITIES.—

“(1) IN GENERAL.—The Director of NIH, acting through the Director of the Center, may make grants or contracts to public and nonprofit private entities to expand, remodel, renovate, or alter existing research facilities or construct new research facilities, subject to the provisions of this section.

“(2) CONSTRUCTION AND COST OF CONSTRUCTION.—For purposes of this section, the terms ‘construction’ and ‘cost of construction’ include the construction of new buildings and the expansion, renovation, remodeling, and alteration of existing buildings, including architects’ fees, but do not include the cost of acquisition of land or off-site improvements.

“(b) SCIENTIFIC AND TECHNICAL REVIEW BOARDS FOR MERIT-BASED REVIEW OF PROPOSALS.—

SEC. 305. SHARED INSTRUMENTATION GRANT PROGRAM.

42 USC 287 note.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$100,000,000 for fiscal year 2000, and such sums as may be necessary for each subsequent fiscal year, to enable the Secretary of Health and Human Services, acting through the Director of the National Center for Research Resources, to provide for the continued operation of the Shared Instrumentation Grant Program (initiated in fiscal year 1992 under the authority of section 479 of the Public Health Service Act (42 U.S.C. 287 et seq.)).

Cardiac Arrest
Survival Act of
2000.

TITLE IV—CARDIAC ARREST SURVIVAL

Subtitle A—Recommendations for Federal Buildings

42 USC 201 note. **SEC. 401. SHORT TITLE.**

This subtitle may be cited as the “Cardiac Arrest Survival Act of 2000”.

42 USC 238p
note. **SEC. 402. FINDINGS.**

Congress makes the following findings:

(1) Over 700 lives are lost every day to sudden cardiac arrest in the United States alone.

(2) Two out of every three sudden cardiac deaths occur before a victim can reach a hospital.

(3) More than 95 percent of these cardiac arrest victims will die, many because of lack of readily available life saving medical equipment.

(4) With current medical technology, up to 30 percent of cardiac arrest victims could be saved if victims had access to immediate medical response, including defibrillation and cardiopulmonary resuscitation.

(5) Once a victim has suffered a cardiac arrest, every minute that passes before returning the heart to a normal rhythm decreases the chance of survival by 10 percent.

(6) Most cardiac arrests are caused by abnormal heart rhythms called ventricular fibrillation. Ventricular fibrillation occurs when the heart's electrical system malfunctions, causing

a chaotic rhythm that prevents the heart from pumping oxygen to the victim's brain and body.

(7) Communities that have implemented programs ensuring widespread public access to defibrillators, combined with appropriate training, maintenance, and coordination with local emergency medical systems, have dramatically improved the survival rates from cardiac arrest.

(8) Automated external defibrillator devices have been demonstrated to be safe and effective, even when used by lay people, since the devices are designed not to allow a user to administer a shock until after the device has analyzed a victim's heart rhythm and determined that an electric shock is required.

(9) Increasing public awareness regarding automated external defibrillator devices and encouraging their use in Federal buildings will greatly facilitate their adoption.

(10) Limiting the liability of Good Samaritans and acquirers of automated external defibrillator devices in emergency situations may encourage the use of automated external defibrillator devices, and result in saved lives.

SEC. 403. RECOMMENDATIONS AND GUIDELINES OF SECRETARY OF HEALTH AND HUMAN SERVICES REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS FOR FEDERAL BUILDINGS.

Part B of title II of the Public Health Service Act (42 U.S.C. 238 et seq.) is amended by adding at the end the following:

“RECOMMENDATIONS AND GUIDELINES REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS FOR FEDERAL BUILDINGS

“SEC. 247. (a) GUIDELINES ON PLACEMENT.—The Secretary shall establish guidelines with respect to placing automated external defibrillator devices in Federal buildings. Such guidelines shall take into account the extent to which such devices may be used by lay persons, the typical number of employees and visitors in the buildings, the extent of the need for security measures regarding the buildings, buildings or portions of buildings in which there are special circumstances such as high electrical voltage or extreme heat or cold, and such other factors as the Secretary determines to be appropriate.

42 USC 238p.

“(b) RELATED RECOMMENDATIONS.—The Secretary shall publish in the Federal Register the recommendations of the Secretary on the appropriate implementation of the placement of automated external defibrillator devices under subsection (a), including procedures for the following:

Federal Register, publication.

“(1) Implementing appropriate training courses in the use of such devices, including the role of cardiopulmonary resuscitation.

“(2) Proper maintenance and testing of the devices.

“(3) Ensuring coordination with appropriate licensed professionals in the oversight of training of the devices.

“(4) Ensuring coordination with local emergency medical systems regarding the placement and incidents of use of the devices.

“(c) CONSULTATIONS; CONSIDERATION OF CERTAIN RECOMMENDATIONS.—In carrying out this section, the Secretary shall—

“(1) consult with appropriate public and private entities;

“(2) consider the recommendations of national and local public-health organizations for improving the survival rates of individuals who experience cardiac arrest in nonhospital settings by minimizing the time elapsing between the onset of cardiac arrest and the initial medical response, including defibrillation as necessary; and

“(3) consult with and counsel other Federal agencies where such devices are to be used.

Deadline.

“(d) **DATE CERTAIN FOR ESTABLISHING GUIDELINES AND RECOMMENDATIONS.**—The Secretary shall comply with this section not later than 180 days after the date of the enactment of the Cardiac Arrest Survival Act of 2000.

“(e) **DEFINITIONS.**—For purposes of this section:

“(1) The term ‘automated external defibrillator device’ has the meaning given such term in section 248.

“(2) The term ‘Federal building’ includes a building or portion of a building leased or rented by a Federal agency, and includes buildings on military installations of the United States.”.

SEC. 404. GOOD SAMARITAN PROTECTIONS REGARDING EMERGENCY USE OF AUTOMATED EXTERNAL DEFIBRILLATORS.

Part B of title II of the Public Health Service Act, as amended by section 403, is amended by adding at the end the following:

“LIABILITY REGARDING EMERGENCY USE OF AUTOMATED EXTERNAL DEFIBRILLATORS

42 USC 238q.

“**SEC. 248. (a) GOOD SAMARITAN PROTECTIONS REGARDING AEDS.**—Except as provided in subsection (b), any person who uses or attempts to use an automated external defibrillator device on a victim of a perceived medical emergency is immune from civil liability for any harm resulting from the use or attempted use of such device; and in addition, any person who acquired the device is immune from such liability, if the harm was not due to the failure of such acquirer of the device—

“(1) to notify local emergency response personnel or other appropriate entities of the most recent placement of the device within a reasonable period of time after the device was placed;

“(2) to properly maintain and test the device; or

“(3) to provide appropriate training in the use of the device to an employee or agent of the acquirer when the employee or agent was the person who used the device on the victim, except that such requirement of training does not apply if—

“(A) the employee or agent was not an employee or agent who would have been reasonably expected to use the device; or

“(B) the period of time elapsing between the engagement of the person as an employee or agent and the occurrence of the harm (or between the acquisition of the device and the occurrence of the harm, in any case in which the device was acquired after such engagement of the person) was not a reasonably sufficient period in which to provide the training.

“(b) **INAPPLICABILITY OF IMMUNITY.**—Immunity under subsection (a) does not apply to a person if—

“(1) the harm involved was caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the victim who was harmed;

“(2) the person is a licensed or certified health professional who used the automated external defibrillator device while acting within the scope of the license or certification of the professional and within the scope of the employment or agency of the professional;

“(3) the person is a hospital, clinic, or other entity whose purpose is providing health care directly to patients, and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent; or

“(4) the person is an acquirer of the device who leased the device to a health care entity (or who otherwise provided the device to such entity for compensation without selling the device to the entity), and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent.

“(c) RULES OF CONSTRUCTION.—

“(1) IN GENERAL.—The following applies with respect to this section:

“(A) This section does not establish any cause of action, or require that an automated external defibrillator device be placed at any building or other location.

“(B) With respect to a class of persons for which this section provides immunity from civil liability, this section supersedes the law of a State only to the extent that the State has no statute or regulations that provide persons in such class with immunity for civil liability arising from the use by such persons of automated external defibrillator devices in emergency situations (within the meaning of the State law or regulation involved).

“(C) This section does not waive any protection from liability for Federal officers or employees under—

“(i) section 224; or

“(ii) sections 1346(b), 2672, and 2679 of title 28, United States Code, or under alternative benefits provided by the United States where the availability of such benefits precludes a remedy under section 1346(b) of title 28.

“(2) CIVIL ACTIONS UNDER FEDERAL LAW.—

“(A) IN GENERAL.—The applicability of subsections (a) and (b) includes applicability to any action for civil liability described in subsection (a) that arises under Federal law.

“(B) FEDERAL AREAS ADOPTING STATE LAW.—If a geographic area is under Federal jurisdiction and is located within a State but out of the jurisdiction of the State, and if, pursuant to Federal law, the law of the State applies in such area regarding matters for which there is no applicable Federal law, then an action for civil liability described in subsection (a) that in such area arises under the law of the State is subject to subsections (a) through (c) in lieu of any related State law that would apply in such area in the absence of this subparagraph.

“(d) **FEDERAL JURISDICTION.**—In any civil action arising under State law, the courts of the State involved have jurisdiction to apply the provisions of this section exclusive of the jurisdiction of the courts of the United States.

“(e) **DEFINITIONS.**—

“(1) **PERCEIVED MEDICAL EMERGENCY.**—For purposes of this section, the term ‘perceived medical emergency’ means circumstances in which the behavior of an individual leads a reasonable person to believe that the individual is experiencing a life-threatening medical condition that requires an immediate medical response regarding the heart or other cardiopulmonary functioning of the individual.

“(2) **OTHER DEFINITIONS.**—For purposes of this section:

“(A) The term ‘automated external defibrillator device’ means a defibrillator device that—

“(i) is commercially distributed in accordance with the Federal Food, Drug, and Cosmetic Act;

“(ii) is capable of recognizing the presence or absence of ventricular fibrillation, and is capable of determining without intervention by the user of the device whether defibrillation should be performed;

“(iii) upon determining that defibrillation should be performed, is able to deliver an electrical shock to an individual; and

“(iv) in the case of a defibrillator device that may be operated in either an automated or a manual mode, is set to operate in the automated mode.

“(B)(i) The term ‘harm’ includes physical, nonphysical, economic, and noneconomic losses.

“(ii) The term ‘economic loss’ means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for such loss is allowed under applicable State law.

“(iii) The term ‘noneconomic losses’ means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other non-pecuniary losses of any kind or nature.”.

Rural Access to
Emergency
Devices Act.

Subtitle B—Rural Access to Emergency Devices

42 USC 254c
note.

SEC. 411. SHORT TITLE.

This subtitle may be cited as the “Rural Access to Emergency Devices Act” or the “Rural AED Act”.

42 USC 254c
note.

SEC. 412. FINDINGS.

Congress makes the following findings:

(1) Heart disease is the leading cause of death in the United States.

(2) The American Heart Association estimates that 250,000 Americans die from sudden cardiac arrest each year.

(3) A cardiac arrest victim's chance of survival drops 10 percent for every minute that passes before his or her heart is returned to normal rhythm.

(4) Because most cardiac arrest victims are initially in ventricular fibrillation, and the only treatment for ventricular fibrillation is defibrillation, prompt access to defibrillation to return the heart to normal rhythm is essential.

(5) Lifesaving technology, the automated external defibrillator, has been developed to allow trained lay rescuers to respond to cardiac arrest by using this simple device to shock the heart into normal rhythm.

(6) Those people who are likely to be first on the scene of a cardiac arrest situation in many communities, particularly smaller and rural communities, lack sufficient numbers of automated external defibrillators to respond to cardiac arrest in a timely manner.

(7) The American Heart Association estimates that more than 50,000 deaths could be prevented each year if defibrillators were more widely available to designated responders.

(8) Legislation should be enacted to encourage greater public access to automated external defibrillators in communities across the United States.

SEC. 413. GRANTS.

42 USC 254c
note.

(a) IN GENERAL.—The Secretary of Health and Human Services, acting through the Rural Health Outreach Office of the Health Resources and Services Administration, shall award grants to community partnerships that meet the requirements of subsection (b) to enable such partnerships to purchase equipment and provide training as provided for in subsection (c).

(b) COMMUNITY PARTNERSHIPS.—A community partnership meets the requirements of this subsection if such partnership—

(1) is composed of local emergency response entities such as community training facilities, local emergency responders, fire and rescue departments, police, community hospitals, and local non-profit entities and for-profit entities concerned about cardiac arrest survival rates;

(2) evaluates the local community emergency response times to assess whether they meet the standards established by national public health organizations such as the American Heart Association and the American Red Cross; and

(3) submits to the Secretary of Health and Human Services an application at such time, in such manner, and containing such information as the Secretary may require.

(c) USE OF FUNDS.—Amounts provided under a grant under this section shall be used—

(1) to purchase automated external defibrillators that have been approved, or cleared for marketing, by the Food and Drug Administration; and

(2) to provide defibrillator and basic life support training in automated external defibrillator usage through the American Heart Association, the American Red Cross, or other nationally recognized training courses.

(d) REPORT.—Not later than 4 years after the date of the enactment of this Act, the Secretary of Health and Human Services

Deadline.

shall prepare and submit to the appropriate committees of Congress a report containing data relating to whether the increased availability of defibrillators has affected survival rates in the communities in which grantees under this section operated. The procedures under which the Secretary obtains data and prepares the report under this subsection shall not impose an undue burden on program participants under this section.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$25,000,000 for fiscal years 2001 through 2003 to carry out this section.

Lupus Research
and Care
Amendments of
2000.
42 USC 201 note.

TITLE V—LUPUS RESEARCH AND CARE

SEC. 501. SHORT TITLE.

This title may be cited as the “Lupus Research and Care Amendments of 2000”.

42 USC 285d–6a
note.

SEC. 502. FINDINGS.

The Congress finds that—

(1) lupus is a serious, complex, inflammatory, autoimmune disease of particular concern to women;

(2) lupus affects women nine times more often than men;

(3) there are three main types of lupus: systemic lupus, a serious form of the disease that affects many parts of the body; discoid lupus, a form of the disease that affects mainly the skin; and drug-induced lupus caused by certain medications;

(4) lupus can be fatal if not detected and treated early;

(5) the disease can simultaneously affect various areas of the body, such as the skin, joints, kidneys, and brain, and can be difficult to diagnose because the symptoms of lupus are similar to those of many other diseases;

(6) lupus disproportionately affects African-American women, as the prevalence of the disease among such women is three times the prevalence among white women, and an estimated 1 in 250 African-American women between the ages of 15 and 65 develops the disease;

(7) it has been estimated that between 1,400,000 and 2,000,000 Americans have been diagnosed with the disease, and that many more have undiagnosed cases;

(8) current treatments for the disease can be effective, but may lead to damaging side effects;

(9) many victims of the disease suffer debilitating pain and fatigue, making it difficult to maintain employment and lead normal lives; and

(10) in fiscal year 1996, the amount allocated by the National Institutes of Health for research on lupus was \$33,000,000, which is less than one-half of 1 percent of the budget for such Institutes.

Subtitle A—Research on Lupus

SEC. 511. EXPANSION AND INTENSIFICATION OF ACTIVITIES.

Subpart 4 of part C of title IV of the Public Health Service Act (42 U.S.C. 285d et seq.) is amended by inserting after section 441 the following:

“(c) PROGRAMS FOR LUPUS.—In carrying out subsection (a), the Director of the Institute shall conduct or support research to expand the understanding of the causes of, and to find a cure for, lupus. Activities under such subsection shall include conducting and supporting the following:

“(1) Research to determine the reasons underlying the elevated prevalence of lupus in women, including African-American women.

“(2) Basic research concerning the etiology and causes of the disease.

“(3) Epidemiological studies to address the frequency and natural history of the disease and the differences among the sexes and among racial and ethnic groups with respect to the disease.

“(4) The development of improved diagnostic techniques.

“(5) Clinical research for the development and evaluation of new treatments, including new biological agents.

“(6) Information and education programs for health care professionals and the public.

42 USC 254c–11. **SEC. 523. TECHNICAL ASSISTANCE.**

The Secretary may provide technical assistance to assist entities in complying with the requirements of this subtitle in order to make such entities eligible to receive grants under section 521.

Organ
Procurement
Organization
Certification Act
of 2000.

42 USC 201 note.

42 USC 273 note.

TITLE VII—ORGAN PROCUREMENT AND DONATION

SEC. 701. ORGAN PROCUREMENT ORGANIZATION CERTIFICATION.

(a) SHORT TITLE.—This section may be cited as the “Organ Procurement Organization Certification Act of 2000”.

(b) FINDINGS.—Congress makes the following findings:

(1) Organ procurement organizations play an important role in the effort to increase organ donation in the United States.

(2) The current process for the certification and recertification of organ procurement organizations conducted by the Department of Health and Human Services has created a level of uncertainty that is interfering with the effectiveness of organ procurement organizations in raising the level of organ donation.

(3) The General Accounting Office, the Institute of Medicine, and the Harvard School of Public Health have identified substantial limitations in the organ procurement organization certification and recertification process and have recommended changes in that process.

(4) The limitations in the recertification process include:

(A) An exclusive reliance on population-based measures of performance that do not account for the potential in the population for organ donation and do not permit consideration of other outcome and process standards that would more accurately reflect the relative capability and performance of each organ procurement organization.

(B) A lack of due process to appeal to the Secretary of Health and Human Services for recertification on either substantive or procedural grounds.

(5) The Secretary of Health and Human Services has the authority under section 1138(b)(1)(A)(i) of the Social Security

Act (42 U.S.C. 1320b–8(b)(1)(A)(i)) to extend the period for recertification of an organ procurement organization from 2 to 4 years on the basis of its past practices in order to avoid the inappropriate disruption of the nation's organ system.

(6) The Secretary of Health and Human Services can use the extended period described in paragraph (5) for recertification of all organ procurement organizations to—

(A) develop improved performance measures that would reflect organ donor potential and interim outcomes, and to test these measures to ensure that they accurately measure performance differences among the organ procurement organizations; and

(B) improve the overall certification process by incorporating process as well as outcome performance measures, and developing equitable processes for appeals.

(c) CERTIFICATION AND RECERTIFICATION OF ORGAN PROCUREMENT ORGANIZATIONS.—Section 371(b)(1) of the Public Health Service Act (42 U.S.C. 273(b)(1)) is amended—

(1) by redesignating subparagraphs (D) through (G) as subparagraphs (E) through (H), respectively;

(2) by realigning the margin of subparagraph (F) (as so redesignated) so as to align with subparagraph (E) (as so redesignated); and

(3) by inserting after subparagraph (C) the following:

“(D) notwithstanding any other provision of law, has met the other requirements of this section and has been certified or recertified by the Secretary within the previous 4-year period as meeting the performance standards to be a qualified organ procurement organization through a process that either—

“(i) granted certification or recertification within such 4-year period with such certification or recertification in effect as of January 1, 2000, and remaining in effect through the earlier of—

“(I) January 1, 2002; or

“(II) the completion of recertification under the requirements of clause (ii); or

“(ii) is defined through regulations that are promulgated by the Secretary by not later than January 1, 2002, that—

Deadline.

“(I) require recertifications of qualified organ procurement organizations not more frequently than once every 4 years;

“(II) rely on outcome and process performance measures that are based on empirical evidence, obtained through reasonable efforts, of organ donor potential and other related factors in each service area of qualified organ procurement organizations;

“(III) use multiple outcome measures as part of the certification process; and

“(IV) provide for a qualified organ procurement organization to appeal a decertification to the Secretary on substantive and procedural grounds;”.

SEC. 702. DESIGNATION OF GIVE THANKS, GIVE LIFE DAY.

(a) FINDINGS.—Congress finds that—

(1) traditionally, Thanksgiving is a time for families to take time out of their busy lives to come together and to give thanks for the many blessings in their lives;

(2) approximately 21,000 men, women, and children in the United States are given the gift of life each year through transplantation surgery, made possible by the generosity of organ and tissue donations;

(3) more than 66,000 Americans are awaiting their chance to prolong their lives by finding a matching donor;

(4) nearly 5,000 of these patients each year (or 13 patients each day) die while waiting for a donated heart, liver, kidney, or other organ;

(5) nationwide there are up to 15,000 potential donors annually, but families' consent to donation is received for less than 6,000;

(6) the need for organ donations greatly exceeds the supply available;

(7) designation as an organ donor on a driver's license or voter's registration is a valuable step, but does not ensure donation when an occasion arises;

(8) the demand for transplantation will likely increase in the coming years due to the growing safety of transplantation surgery due to improvements in technology and drug developments, prolonged life expectancy, and increased prevalence of diseases that may lead to organ damage and failure, including hypertension, alcoholism, and hepatitis C infection;

(9) the need for a more diverse donor pool, including a variety of racial and ethnic minorities, will continue to grow in the coming years;

(10) the final decision on whether a potential donor can share the gift of life usually is made by surviving family members regardless of the patient's initial intent;

(11) many Americans have indicated a willingness to donate their organs and tissues but have not discussed this critical matter with the family members who are most likely to make the decision, if the occasion arises, as to whether that person will be an organ and tissue donor;

(12) some family members may be reluctant to give consent to donate their deceased loved one's organs and tissues at a very difficult and emotional time if that person has not clearly expressed a desire or willingness to do so;

(13) the vast majority of Americans are likely to spend part of Thanksgiving Day with some of those family members who would be approached to make such a decision; and

(14) it is fitting for families to spend a portion of that day discussing how they might give life to others on a day devoted to giving thanks for their own blessings.

(b) DESIGNATION.—November 23, 2000, Thanksgiving Day, is hereby designated as a day to “Give Thanks, Give Life” and to discuss organ and tissue donation with other family members so that informed decisions can be made if the occasion to donate arises.

Public Law 106–506
106th Congress

An Act

To promote environmental restoration around the Lake Tahoe basin.

Nov. 13, 2000

[H.R. 3388]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Lake Tahoe
Restoration Act.
Forests and
forest protection.
California.
Nevada.

SECTION 1. SHORT TITLE.

This Act may be cited as the “Lake Tahoe Restoration Act”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) Lake Tahoe, one of the largest, deepest, and clearest lakes in the world, has a cobalt blue color, a unique alpine setting, and remarkable water clarity, and is recognized nationally and worldwide as a natural resource of special significance;

(2) in addition to being a scenic and ecological treasure, Lake Tahoe is one of the outstanding recreational resources of the United States, offering skiing, water sports, biking, camping, and hiking to millions of visitors each year, and contributing significantly to the economies of California, Nevada, and the United States;

(3) the economy in the Lake Tahoe basin is dependent on the protection and restoration of the natural beauty and recreation opportunities in the area;

(4) Lake Tahoe is in the midst of an environmental crisis; the Lake’s water clarity has declined from a visibility level of 105 feet in 1967 to only 70 feet in 1999, and scientific estimates indicate that if the water quality at the Lake continues to degrade, Lake Tahoe will lose its famous clarity in only 30 years;

(5) sediment and algae-nourishing phosphorous and nitrogen continue to flow into the Lake from a variety of sources, including land erosion, fertilizers, air pollution, urban runoff, highway drainage, streamside erosion, land disturbance, and ground water flow;

(6) methyl tertiary butyl ether—

(A) has contaminated and closed more than one-third of the wells in South Tahoe; and

(B) is advancing on the Lake at a rate of approximately 9 feet per day;

(7) destruction of wetlands, wet meadows, and stream zone habitat has compromised the Lake’s ability to cleanse itself of pollutants;

(8) approximately 40 percent of the trees in the Lake Tahoe basin are either dead or dying, and the increased quantity

of combustible forest fuels has significantly increased the risk of catastrophic forest fire in the Lake Tahoe basin;

(9) as the largest land manager in the Lake Tahoe basin, with 77 percent of the land, the Federal Government has a unique responsibility for restoring environmental health to Lake Tahoe;

(10) the Federal Government has a long history of environmental preservation at Lake Tahoe, including—

(A) congressional consent to the establishment of the Tahoe Regional Planning Agency in 1969 (Public Law 91-148; 83 Stat. 360) and in 1980 (Public Law 96-551; 94 Stat. 3233);

(B) the establishment of the Lake Tahoe Basin Management Unit in 1973; and

(C) the enactment of Public Law 96-586 (94 Stat. 3381) in 1980 to provide for the acquisition of environmentally sensitive land and erosion control grants;

(11) the President renewed the Federal Government's commitment to Lake Tahoe in 1997 at the Lake Tahoe Presidential Forum, when he committed to increased Federal resources for environmental restoration at Lake Tahoe and established the Federal Interagency Partnership and Federal Advisory Committee to consult on natural resources issues concerning the Lake Tahoe basin;

(12) the States of California and Nevada have contributed proportionally to the effort to protect and restore Lake Tahoe, including—

(A) expenditures—

(i) exceeding \$200,000,000 by the State of California since 1980 for land acquisition, erosion control, and other environmental projects in the Lake Tahoe basin; and

(ii) exceeding \$30,000,000 by the State of Nevada since 1980 for the purposes described in clause (i); and

(B) the approval of a bond issue by voters in the State of Nevada authorizing the expenditure by the State of an additional \$20,000,000; and

(13) significant additional investment from Federal, State, local, and private sources is needed to stop the damage to Lake Tahoe and its forests, and restore the Lake Tahoe basin to ecological health.

(b) PURPOSES.—The purposes of this Act are—

(1) to enable the Forest Service to plan and implement significant new environmental restoration activities and forest management activities to address the phenomena described in paragraphs (4) through (8) of subsection (a) in the Lake Tahoe basin;

(2) to ensure that Federal, State, local, regional, tribal, and private entities continue to work together to improve water quality and manage Federal land in the Lake Tahoe Basin Management Unit; and

(3) to provide funding to local governments for erosion and sediment control projects on non-Federal land if the projects benefit the Federal land.

An Act

To provide for equitable compensation for the Cheyenne River Sioux Tribe, and
for other purposes.

Nov. 13, 2000
[S. 964]

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

**TITLE I—CHEYENNE RIVER SIOUX
TRIBE EQUITABLE COMPENSATION**

Cheyenne River
Sioux Tribe
Equitable
Compensation
Act.
South Dakota.

SEC. 101. SHORT TITLE.

This title may be cited as the “Cheyenne River Sioux Tribe
Equitable Compensation Act”.

SEC. 102. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) by enacting the Act of December 22, 1944 (58 Stat. 887, chapter 665; 33 U.S.C. 701–1 et seq.), commonly known as the “Flood Control Act of 1944”, Congress approved the Pick-Sloan Missouri River Basin program (referred to in this section as the “Pick-Sloan program”)—

(A) to promote the general economic development of the United States;

(B) to provide for irrigation above Sioux City, Iowa;

(C) to protect urban and rural areas from devastating floods of the Missouri River; and

(D) for other purposes;

(2) the Oahe Dam and Reservoir project—

(A) is a major component of the Pick-Sloan program, and contributes to the economy of the United States by generating a substantial amount of hydropower and impounding a substantial quantity of water;

(B) overlies the eastern boundary of the Cheyenne River Sioux Indian Reservation; and

(C) has not only contributed little to the economy of the Tribe, but has severely damaged the economy of the Tribe and members of the Tribe by inundating the fertile, wooded bottom lands of the Tribe along the Missouri River that constituted the most productive agricultural and pastoral lands of the Tribe and the homeland of the members of the Tribe;

(3) the Secretary of the Interior appointed a Joint Tribal Advisory Committee that examined the Oahe Dam and Reservoir project and concluded that—

(A) the Federal Government did not justify, or fairly compensate the Tribe for, the Oahe Dam and Reservoir project when the Federal Government acquired 104,492 acres of land of the Tribe for that project; and

(B) the Tribe should be adequately compensated for the land acquisition described in subparagraph (A);

(4) after applying the same method of analysis as is used for the compensation of similarly situated Indian tribes, the Comptroller General of the United States (referred to in this title as the “Comptroller General”) determined that the appropriate amount of compensation to pay the Tribe for the land acquisition described in paragraph (3)(A) would be \$290,723,000;

(5) the Tribe is entitled to receive additional financial compensation for the land acquisition described in paragraph (3)(A) in a manner consistent with the determination of the Comptroller General described in paragraph (4); and

(6) the establishment of a trust fund to make amounts available to the Tribe under this title is consistent with the principles of self-governance and self-determination.

(b) PURPOSES.—The purposes of this title are as follows:

(1) To provide for additional financial compensation to the Tribe for the acquisition by the Federal Government of 104,492 acres of land of the Tribe for the Oahe Dam and Reservoir project in a manner consistent with the determinations of the Comptroller General described in subsection (a)(4).

(2) To provide for the establishment of the Cheyenne River Sioux Tribal Recovery Trust Fund, to be managed by the Secretary of the Treasury in order to make payments to the Tribe to carry out projects under a plan prepared by the Tribe.

(c) INVESTMENT OF TRUST FUND.—It shall be the duty of the Secretary of the Treasury to invest such portion of the Fund as is not, in the Secretary of the Treasury's judgment, required to meet current withdrawals. (1) In the Act of March 2, 1936 (Chapter 113; 49 Stat. 1155; 16 U.S.C. 423j), Congress authorized the establishment of the Richmond National Battlefield Park, and the boundaries of the battlefield park were established to permit the inclusion of all military battlefield areas related to the battles fought during the Civil War in the vicinity of the City of Richmond, Virginia. The battlefield park originally included the area then known as the Richmond Battlefield State Park.

(2) The total acreage identified in 1936 for consideration for inclusion in the battlefield park consisted of approximately 225,000 acres in and around the City of Richmond. A study undertaken by the congressionally authorized Civil War Sites Advisory Committee determined that of these 225,000 acres, the historically significant areas relating to the campaigns against and in defense of Richmond encompass approximately 38,000 acres.

(3) In a 1996 general management plan, the National Park Service identified approximately 7,121 acres in and around the City of Richmond that satisfy the National Park Service criteria of significance, integrity, feasibility, and suitability for inclusion in the battlefield park. The National Park Service later identified an additional 186 acres for inclusion in the battlefield park.

(4) There is a national interest in protecting and preserving sites of historical significance associated with the Civil War and the City of Richmond.

(5) The Commonwealth of Virginia and its local units of government have authority to prevent or minimize adverse uses of these historic resources and can play a significant role in the protection of the historic resources related to the campaigns against and in defense of Richmond.

(6) The preservation of the New Market Heights Battlefield in the vicinity of the City of Richmond is an important aspect of American history that can be interpreted to the public. The Battle of New Market Heights represents a premier landmark in black military history as 14 black Union soldiers were awarded the Medal of Honor in recognition of their valor during the battle. According to National Park Service historians, the sacrifices of the United States Colored Troops in this battle helped to ensure the passage of the Thirteenth Amendment to the United States Constitution to abolish slavery.

(b) PURPOSE.—It is the purpose of this title—

(1) to revise the boundaries for the Richmond National Battlefield Park based on the findings of the Civil War Sites Advisory Committee and the National Park Service; and

(2) to direct the Secretary of the Interior to work in cooperation with the Commonwealth of Virginia, the City of Richmond, other political subdivisions of the Commonwealth, other public entities, and the private sector in the management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the City of Richmond, Virginia.

SEC. 503. RICHMOND NATIONAL BATTLEFIELD PARK; BOUNDARIES.

(a) ESTABLISHMENT AND PURPOSE.—For the purpose of protecting, managing, and interpreting the resources associated with the Civil War battles in and around the City of Richmond, Virginia, there is established the Richmond National Battlefield Park consisting of approximately 7,307 acres of land, as generally depicted on the map entitled “Richmond National Battlefield Park Boundary Revision”, numbered 367N.E.F.A.80026A, and dated September 2000. The map shall be on file in the appropriate offices of the National Park Service.

16 USC 423l-4.

SEC. 504. LAND ACQUISITION.

(a) ACQUISITION AUTHORITY.—

(1) IN GENERAL.—The Secretary may acquire lands, waters, and interests in lands within the boundaries of the battlefield park from willing landowners by donation, purchase with donated or appropriated funds, or exchange. In acquiring lands and interests in lands under this title, the Secretary shall acquire the minimum interest necessary to achieve the purposes for which the battlefield is established.

(2) SPECIAL RULE FOR PRIVATE LANDS.—Privately owned lands or interests in lands may be acquired under this title only with the consent of the owner.

(b) EASEMENTS.—

(1) OUTSIDE BOUNDARIES.—The Secretary may acquire an easement on property outside the boundaries of the battlefield park and around the City of Richmond, with the consent of the owner, if the Secretary determines that the easement is necessary to protect core Civil War resources as identified by the Civil War Sites Advisory Committee. Upon acquisition of the easement, the Secretary shall revise the boundaries of the battlefield park to include the property subject to the easement.

(2) INSIDE BOUNDARIES.—To the extent practicable, and if preferred by a willing landowner, the Secretary shall use permanent conservation easements to acquire interests in land in lieu of acquiring land in fee simple and thereby removing land from non-Federal ownership.

(c) VISITOR CENTER.—The Secretary may acquire the Tredegar Iron Works buildings and associated land in the City of Richmond for use as a visitor center for the battlefield park.

SEC. 505. PARK ADMINISTRATION.

16 USC 423l–5.

(a) APPLICABLE LAWS.—The Secretary, acting through the Director of the National Park Service, shall administer the battlefield park in accordance with this title and laws generally applicable to units of the National Park System, including the Act of August 25, 1916 (16 U.S.C. 1 et seq.) and the Act of August 21, 1935 (16 U.S.C. 461 et seq.).

(b) NEW MARKET HEIGHTS BATTLEFIELD.—The Secretary shall provide for the establishment of a monument or memorial suitable to honor the 14 Medal of Honor recipients from the United States Colored Troops who fought in the Battle of New Market Heights. The Secretary shall include the Battle of New Market Heights and the role of black Union soldiers in the battle in historical interpretations provided to the public at the battlefield park.

(c) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative agreements with the Commonwealth of Virginia, its political subdivisions (including the City of Richmond), private property owners, and other members of the private sector to develop mechanisms to protect and interpret the historical resources within the battlefield park in a manner that would allow for continued private ownership and use where compatible with the purposes for which the battlefield is established.

(d) TECHNICAL ASSISTANCE.—The Secretary may provide technical assistance to the Commonwealth of Virginia, its political subdivisions, nonprofit entities, and private property owners for the development of comprehensive plans, land use guidelines, special studies, and other activities that are consistent with the identification, protection, interpretation, and commemoration of historically significant Civil War resources located inside and outside of the boundaries of the battlefield park. The technical assistance does not authorize the Secretary to own or manage any of the resources outside the battlefield park boundaries.

SEC. 506. AUTHORIZATION OF APPROPRIATIONS.

16 USC 423l–6.

There are authorized to be appropriated such sums as are necessary to carry out this title.

SEC. 507. REPEAL OF SUPERSEDED LAW.

The Act of March 2, 1936 (chapter 113; 16 U.S.C. 423j-423l) is repealed.

SEC. 2. FINDINGS.

The Congress finds as follows:

Minority Health
and Health
Disparities
Research and
Education Act of
2000.
42 USC 202 note.

42 USC 287c–31
note.

(1) Despite notable progress in the overall health of the Nation, there are continuing disparities in the burden of illness and death experienced by African Americans, Hispanics, Native Americans, Alaska Natives, and Asian Pacific Islanders, compared to the United States population as a whole.

(2) The largest numbers of the medically underserved are white individuals, and many of them have the same health care access problems as do members of minority groups. Nearly 20,000,000 white individuals live below the poverty line with many living in nonmetropolitan, rural areas such as Appalachia, where the high percentage of counties designated as health professional shortage areas (47 percent) and the high rate of poverty contribute to disparity outcomes. However, there is a higher proportion of racial and ethnic minorities in the United States represented among the medically underserved.

(3) There is a national need for minority scientists in the fields of biomedical, clinical, behavioral, and health services research. Ninety percent of minority physicians educated at Historically Black Medical Colleges live and serve in minority communities.

(4) Demographic trends inspire concern about the Nation's ability to meet its future scientific, technological, and engineering workforce needs. Historically, non-Hispanic white males have made up the majority of the United States scientific, technological, and engineering workers.

(5) The Hispanic and Black population will increase significantly in the next 50 years. The scientific, technological, and engineering workforce may decrease if participation by underrepresented minorities remains the same.

(6) Increasing rates of Black and Hispanic workers can help ensure a strong scientific, technological, and engineering workforce.

(7) Individuals such as underrepresented minorities and women in the scientific, technological, and engineering workforce enable society to address its diverse needs.

(8) If there had not been a substantial increase in the number of science and engineering degrees awarded to women and underrepresented minorities over the past few decades, the United States would be facing even greater shortages in scientific, technological, and engineering workers.

(9) In order to effectively promote a diverse and strong 21st century scientific, technological, and engineering workforce, Federal agencies should expand or add programs that effectively overcome barriers such as educational transition from one level to the next and student requirements for financial resources.

(10) Federal agencies should work in concert with the private nonprofit sector to emphasize the recruitment and retention of qualified individuals from ethnic and gender groups that are currently underrepresented in the scientific, technological, and engineering workforce.

(11) Behavioral and social sciences research has increased awareness and understanding of factors associated with health care utilization and access, patient attitudes toward health services, and risk and protective behaviors that affect health and illness. These factors have the potential to then be modified

to help close the health disparities gap among ethnic minority populations. In addition, there is a shortage of minority behavioral science researchers and behavioral health care professionals. According to the National Science Foundation, only 15.5 percent of behavioral research-oriented psychology doctorate degrees were awarded to minority students in 1997. In addition, only 17.9 percent of practice-oriented psychology doctorate degrees were awarded to ethnic minorities.

TITLE I—IMPROVING MINORITY HEALTH AND REDUCING HEALTH DISPARITIES THROUGH NATIONAL INSTITUTES OF HEALTH; ESTABLISHMENT OF NATIONAL CENTER

SEC. 101. ESTABLISHMENT OF NATIONAL CENTER ON MINORITY HEALTH AND HEALTH DISPARITIES.

(a) IN GENERAL.—Part E of title IV of the Public Health Service Act (42 U.S.C. 287 et seq.) is amended by adding at the end the following subpart:

“SEC. 485E. PURPOSE OF CENTER.

42 USC 287c–31.

“(a) IN GENERAL.—The general purpose of the National Center on Minority Health and Health Disparities (in this subpart referred to as the ‘Center’) is the conduct and support of research, training, dissemination of information, and other programs with respect to minority health conditions and other populations with health disparities.

“(b) PRIORITIES.—The Director of the Center shall in expending amounts appropriated under this subpart give priority to conducting and supporting minority health disparities research.

“(c) MINORITY HEALTH DISPARITIES RESEARCH.—For purposes of this subpart:

“(1) The term ‘minority health disparities research’ means basic, clinical, and behavioral research on minority health conditions (as defined in paragraph (2)), including research to prevent, diagnose, and treat such conditions.

“(2) The term ‘minority health conditions’, with respect to individuals who are members of minority groups, means all diseases, disorders, and conditions (including with respect to mental health and substance abuse)—

“(A) unique to, more serious, or more prevalent in such individuals;

“(B) for which the factors of medical risk or types of medical intervention may be different for such individuals, or for which it is unknown whether such factors or types are different for such individuals; or

“(C) with respect to which there has been insufficient research involving such individuals as subjects or insufficient data on such individuals.

“(3) The term ‘minority group’ has the meaning given the term ‘racial and ethnic minority group’ in section 1707.

“(4) The terms ‘minority’ and ‘minorities’ refer to individuals from a minority group.

“(d) HEALTH DISPARITY POPULATIONS.—For purposes of this subpart:

“(1) A population is a health disparity population if, as determined by the Director of the Center after consultation with the Director of the Agency for Healthcare Research and Quality, there is a significant disparity in the overall rate of disease incidence, prevalence, morbidity, mortality, or survival rates in the population as compared to the health status of the general population.

“(2) The Director shall give priority consideration to determining whether minority groups qualify as health disparity populations under paragraph (1).

“(3) The term ‘health disparities research’ means basic, clinical, and behavioral research on health disparity populations (including individual members and communities of such populations) that relates to health disparities as defined under paragraph (1), including the causes of such disparities and methods to prevent, diagnose, and treat such disparities.

“(f) COLLABORATIVE COMPREHENSIVE PLAN AND BUDGET.—

“(1) IN GENERAL.—Subject to the provisions of this section and other applicable law, the Director of NIH, the Director of the Center, and the directors of the other agencies of the National Institutes of Health in collaboration (and in consultation with the advisory council for the Center) shall—

“(A) establish a comprehensive plan and budget for the conduct and support of all minority health disparities research and other health disparities research activities of the agencies of the National Institutes of Health (which plan and budget shall be first established under this subsection not later than 12 months after the date of the enactment of this subpart);

“(B) ensure that the plan and budget establish priorities among the health disparities research activities that such agencies are authorized to carry out;

“(C) ensure that the plan and budget establish objectives regarding such activities, describes the means for

Deadline.

achieving the objectives, and designates the date by which the objectives are expected to be achieved;

“(D) ensure that, with respect to amounts appropriated for activities of the Center, the plan and budget give priority in the expenditure of funds to conducting and supporting minority health disparities research;

“(E) ensure that all amounts appropriated for such activities are expended in accordance with the plan and budget;

“(F) review the plan and budget not less than annually, and revise the plan and budget as appropriate;

“(G) ensure that the plan and budget serve as a broad, binding statement of policies regarding minority health disparities research and other health disparities research activities of the agencies, but do not remove the responsibility of the heads of the agencies for the approval of specific programs or projects, or for other details of the daily administration of such activities, in accordance with the plan and budget; and

“(H) promote coordination and collaboration among the agencies conducting or supporting minority health or other health disparities research.

“(2) CERTAIN COMPONENTS OF PLAN AND BUDGET.—With respect to health disparities research activities of the agencies of the National Institutes of Health, the Director of the Center shall ensure that the plan and budget under paragraph (1) provide for—

“(A) basic research and applied research, including research and development with respect to products;

“(B) research that is conducted by the agencies;

“(C) research that is supported by the agencies;

“(D) proposals developed pursuant to solicitations by the agencies and for proposals developed independently of such solicitations; and

“(E) behavioral research and social sciences research, which may include cultural and linguistic research in each of the agencies.

“(3) MINORITY HEALTH DISPARITIES RESEARCH.—The plan and budget under paragraph (1) shall include a separate statement of the plan and budget for minority health disparities research.

“(g) PARTICIPATION IN CLINICAL RESEARCH.—The Director of the Center shall work with the Director of NIH and the directors of the agencies of the National Institutes of Health to carry out the provisions of section 492B that relate to minority groups.

“(h) RESEARCH ENDOWMENTS.—

“(1) IN GENERAL.—The Director of the Center may carry out a program to facilitate minority health disparities research and other health disparities research by providing for research endowments at centers of excellence under section 736.

“(2) ELIGIBILITY.—The Director of the Center may provide for a research endowment under paragraph (1) only if the institution involved meets the following conditions:

“(A) The institution does not have an endowment that is worth in excess of an amount equal to 50 percent of the national average of endowment funds at institutions

that conduct similar biomedical research or training of health professionals.

“(B) The application of the institution under paragraph (1) regarding a research endowment has been recommended pursuant to technical and scientific peer review and has been approved by the advisory council under subsection (j).

 - (B) expanded visitor use opportunities;
- (7) land in and adjacent to the Great Sand Dunes National Monument is—
 - (A) recognized for the culturally diverse nature of the historical settlement of the area;

An Act

To protect seniors from fraud.

Nov. 22, 2000

[S. 3164]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Protecting Seniors From Fraud Act”.

Protecting
Seniors From
Fraud Act.
15 USC 6101
note.

SEC. 2. FINDINGS.

15 USC 6101
note.

Congress makes the following findings:

(1) Older Americans are among the most rapidly growing segments of our society.

(2) Our Nation’s elderly are too frequently the victims of violent crime, property crime, and consumer and telemarketing fraud.

(3) The elderly are often targeted and retargeted in a range of fraudulent schemes.

(4) The TRIAD program, originally sponsored by the National Sheriffs’ Association, International Association of Chiefs of Police, and the American Association of Retired Persons unites sheriffs, police chiefs, senior volunteers, elder care providers, families, and seniors to reduce the criminal victimization of the elderly.

(5) Congress should continue to support TRIAD and similar community partnerships that improve the safety and quality of life for millions of senior citizens.

(6) There are few other community-based efforts that forge partnerships to coordinate criminal justice and social service resources to improve the safety and security of the elderly.

(7) According to the National Consumers League, telemarketing fraud costs consumers nearly \$40,000,000,000 each year.

(8) Senior citizens are often the target of telemarketing fraud.

(9) Fraudulent telemarketers compile the names of consumers who are potentially vulnerable to telemarketing fraud into the so-called “mooch lists”.

(10) It is estimated that 56 percent of the names on such “mooch lists” are individuals age 50 or older.

(11) The Federal Bureau of Investigation and the Federal Trade Commission have provided resources to assist private-sector organizations to operate outreach programs to warn senior citizens whose names appear on confiscated “mooch lists”.

(12) The Administration on Aging was formed, in part, to provide senior citizens with the resources, information, and assistance their special circumstances require.

(13) The Administration on Aging has a system in place to inform senior citizens of the dangers of telemarketing fraud.

(14) Senior citizens need to be warned of the dangers of telemarketing fraud before they become victims of such fraud.

15 USC 6101
note.

SEC. 3. SENIOR FRAUD PREVENTION PROGRAM.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Attorney General \$1,000,000 for each of the fiscal years 2001 through 2005 for programs for the National Association of TRIAD.

Reports.
Deadline.

(b) **COMPTROLLER GENERAL.**—The Comptroller General of the United States shall submit to Congress a report on the effectiveness of the TRIAD program 180 days prior to the expiration of the authorization under this Act, including an analysis of TRIAD programs and activities; identification of impediments to the establishment of TRIADs across the Nation; and recommendations to improve the effectiveness of the TRIAD program.

(c) **GRAZING.**—The Secretary of the Interior shall permit grazing subject to all applicable laws, regulations, and Executive orders consistent with the purposes of this Act.

(d) **MOTORIZED VEHICLES.**—Except where needed for administrative purposes or to respond to an emergency, use of motorized vehicles on public lands in the Conservation Area shall be allowed only—

(h) PREVENTATIVE MEASURES.—Nothing in this Act shall preclude such measures as the Secretary determines necessary to prevent devastating fire or infestation of insects or disease within the Conservation Area.

(i) NO BUFFER ZONES.—The establishment of the Conservation Area shall not lead to the creation of protective perimeters or buffer zones around the Conservation Area. The fact that there may be activities or uses on lands outside the Conservation Area that would not be permitted in the Conservation Area shall not preclude such activities or uses on such lands up to the boundary of the Conservation Area consistent with other applicable laws.

(j) WITHDRAWALS.—Subject to valid existing rights all Federal lands within the Conservation Area and all lands and interest therein which are hereafter acquired by the United States are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws and from location, entry, and patent under the mining laws, and from operation of the mineral leasing and geothermal leasing laws and all amendments thereto.

(10) provisions designed to ensure that if a road or trail located on public lands within the Conservation Area, or any portion of such a road or trail, is removed, consideration shall be given to providing similar alternative access to the portion of the Conservation Area serviced by such removed road or trail.

(1) remove the wildlife mitigation purpose designation from up to 3,000 acres of land as necessary over the life of the project from lands originally acquired for water resource development projects included in the Mitigation Project in accordance with the Report of the Chief of Engineers dated August 31, 1985;

(2) sell or exchange such lands in accordance with subsection (c)(1) and under such conditions as the Secretary determines to be necessary to protect the interests of the United States, utilize such lands as the Secretary determines to be appropriate in connection with development, operation, maintenance, or modification of the water resource development projects, or grant such other interests as the Secretary may determine to be reasonable in the public interest; and

(3) acquire, in accordance with subsections (c) and (d), lands from willing sellers to offset the removal of any lands from the Mitigation Project for the purposes listed in subsection (a)(2) of this section.

(b) **REMOVAL PROCESS.**—Beginning on the date of enactment of this Act, the locations of these lands to be removed will be determined at appropriate time intervals at the discretion of the Secretary, in consultation with appropriate Federal and State fish and wildlife agencies, to facilitate the operation of the water resource development projects and to respond to regional needs related to the project. Removals under this subsection shall be restricted to Project Lands designated for mitigation and shall not include lands purchased exclusively for mitigation purposes (known as Separable Mitigation Lands). Parcel identification,

removal, and sale may occur assuming acreage acquisitions pursuant to subsection (d) are at least equal to the total acreage of the lands removed.

(c) **LANDS TO BE SOLD.**—(1) Lands to be sold or exchanged pursuant to subsection (a)(2) shall be made available for related uses consistent with other uses of the water resource development project lands (including port, industry, transportation, recreation, and other regional needs for the project).

The lands shall be adjacent to lands already in the Mitigation Project unless otherwise agreed to by the Secretary and the fish and wildlife agencies.

(e) **DREDGED MATERIAL DISPOSAL SITES.**—The Secretary shall utilize dredged material disposal areas in such a manner as to maximize their reuse by disposal and removal of dredged materials, in order to conserve undisturbed disposal areas for wildlife habitat to the maximum extent practicable. Where the habitat value loss due to reuse of disposal areas cannot be offset by the reduced need for other unused disposal sites, the Secretary shall determine, in consultation with Federal and State fish and wildlife agencies, and ensure full mitigation for any habitat value lost as a result of such reuse.

(f) **OTHER MITIGATION LANDS.**—The Secretary is also authorized to transfer by lease, easement, license, or permit lands acquired for the Wildlife Mitigation Project pursuant to section 601(a) of Public Law 99-662, in consultation with Federal and State fish and wildlife agencies, when such transfers are necessary to address transportation, utility, and related activities. The Secretary shall ensure full mitigation for any wildlife habitat value lost as a result of such sale or transfer. Habitat value replacement requirements shall be determined by the Secretary in consultation with the appropriate fish and wildlife agencies.

(5) Congress is aware that the Homestead site is located in a sensitive environmental location, and that Biscayne National Park is only approximately 1.5 miles to the east, Everglades National Park approximately 8 miles to the west, and the Florida Keys National Marine Sanctuary approximately 10 miles to the south.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) development at the Homestead site could potentially cause significant air, water, and noise pollution and result in the degradation of adjacent national parks and other protected Federal resources;

(2) in their decisionmaking, the Federal agencies charged with determining the reuse of the remaining property at the Homestead base should carefully consider and weigh all available information concerning potential environmental impacts of various reuse options;

(3) the redevelopment of the former base should be consistent with restoration goals, provide desirable numbers of

jobs and economic redevelopment for the community, and be consistent with other applicable laws;

(4) consistent with applicable laws, the Secretary of the Air Force should proceed as quickly as practicable to issue a final SEIS and Record of Decision so that reuse of the former air base can proceed expeditiously;

(5) following conveyance of the remaining surplus property, the Secretary, as part of his oversight for Everglades restoration, should cooperate with the entities to which the various parcels of surplus property were conveyed so that the planned use of those properties is implemented in such a manner as to remain consistent with the goals of the Everglades restoration plan; and

Deadline.
Reports.

SEC. 11. SENSE OF THE CONGRESS REGARDING THE OBLIGATION OF GRANTEE STATES TO ENSURE ACCESS TO POST-CONVICTION DNA TESTING AND COMPETENT COUNSEL IN CAPITAL CASES.

42 USC 14135
note.

(a) FINDINGS.—Congress finds that—

(1) over the past decade, deoxyribo-nucleic acid testing (referred to in this section as “DNA testing”) has emerged as the most reliable forensic technique for identifying criminals when biological material is left at a crime scene;

(2) because of its scientific precision, DNA testing can, in some cases, conclusively establish the guilt or innocence of a criminal defendant;

(3) in other cases, DNA testing may not conclusively establish guilt or innocence, but may have significant probative value to a finder of fact;

(4) DNA testing was not widely available in cases tried prior to 1994;

(5) new forensic DNA testing procedures have made it possible to get results from minute samples that could not

previously be tested, and to obtain more informative and accurate results than earlier forms of forensic DNA testing could produce, resulting in some cases of convicted inmates being exonerated by new DNA tests after earlier tests had failed to produce definitive results;

(6) DNA testing can and has resulted in the post-conviction exoneration of more than 75 innocent men and women, including some under sentence of death;

(7) in more than a dozen cases, post-conviction DNA testing that has exonerated an innocent person has also enhanced public safety by providing evidence that led to the apprehension of the actual perpetrator;

(8) experience has shown that it is not unduly burdensome to make DNA testing available to inmates in appropriate cases;

(9) under current Federal and State law, it is difficult to obtain post-conviction DNA testing because of time limits on introducing newly discovered evidence;

(10) the National Commission on the Future of DNA Evidence, a Federal panel established by the Department of Justice and comprised of law enforcement, judicial, and scientific experts, has urged that post-conviction DNA testing be permitted in the relatively small number of cases in which it is appropriate, notwithstanding procedural rules that could be invoked to preclude such testing, and notwithstanding the inability of an inmate to pay for the testing;

(11) only a few States have adopted post-conviction DNA testing procedures;

(12) States have received millions of dollars in DNA-related grants, and more funding is needed to improve State forensic facilities and to reduce the nationwide backlog of DNA samples from convicted offenders and crime scenes that need to be tested or retested using upgraded methods;

(13) States that accept such financial assistance should not deny the promise of truth and justice for both sides of our adversarial system that DNA testing offers;

(14) post-conviction DNA testing and other post-conviction investigative techniques have shown that innocent people have been sentenced to death in the United States;

(15) a constitutional error in capital cases is incompetent defense lawyers who fail to present important evidence that the defendant may have been innocent or does not deserve to be sentenced to death; and

(16) providing quality representation to defendants facing the loss of liberty or life is essential to fundamental due process and the speedy final resolution of judicial proceedings.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) Congress should condition forensic science-related grants to a State or State forensic facility on the State's agreement to ensure post-conviction DNA testing in appropriate cases; and

(2) Congress should work with the States to improve the quality of legal representation in capital cases through the

establishment of standards that will assure the timely appointment of competent counsel with adequate resources to represent defendants in capital cases at each stage of those proceedings.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Chimpanzee Health Improvement, Maintenance, and Protection Act”.

SEC. 2. ESTABLISHMENT OF NATIONAL SANCTUARY SYSTEM FOR FEDERALLY OWNED OR SUPPORTED CHIMPANZEES NO LONGER NEEDED FOR RESEARCH.

Subpart 1 of part E of title IV of the Public Health Service Act (42 U.S.C. 287 et seq.) is amended by inserting after section 481B the following section:

42 USC 287a-3a.

“SEC. 481C. SANCTUARY SYSTEM FOR SURPLUS CHIMPANZEES.

“(a) IN GENERAL.—The Secretary shall provide for the establishment and operation in accordance with this section of a system to provide for the lifetime care of chimpanzees that have been used, or were bred or purchased for use, in research conducted or supported by the National Institutes of Health, the Food and Drug Administration, or other agencies of the Federal Government, and with respect to which it has been determined by the Secretary that the chimpanzees are not needed for such research (in this section referred to as ‘surplus chimpanzees’).

“(b) ADMINISTRATION OF SANCTUARY SYSTEM.—The Secretary shall carry out this section, including the establishment of regulations under subsection (d), in consultation with the board of directors of the nonprofit private entity that receives the contract under subsection (e) (relating to the operation of the sanctuary system).

“(c) ACCEPTANCE OF CHIMPANZEES INTO SYSTEM.—All surplus chimpanzees owned by the Federal Government shall be accepted into the sanctuary system. Subject to standards under subsection (d)(4), any chimpanzee that is not owned by the Federal Government can be accepted into the system if the owner transfers to the sanctuary system title to the chimpanzee.

“(d) STANDARDS FOR PERMANENT RETIREMENT OF SURPLUS CHIMPANZEES.—

Deadline.

“(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this section, the Secretary shall by regulation establish standards for operating the sanctuary system

to provide for the permanent retirement of surplus chimpanzees. In establishing the standards, the Secretary shall consider the recommendations of the board of directors of the nonprofit private entity that receives the contract under subsection (e), and shall consider the recommendations of the National Research Council applicable to surplus chimpanzees that are made in the report published in 1997 and entitled ‘Chimpanzees in Research—Strategies for Their Ethical Care, Management, and Use’.

“(2) CHIMPANZEES ACCEPTED INTO SYSTEM.—With respect to chimpanzees that are accepted into the sanctuary system, standards under paragraph (1) shall include the following:

“(A) A prohibition that the chimpanzees may not be used for research, except as authorized under paragraph (3).

“(B) Provisions regarding the housing of the chimpanzees.

“(C) Provisions regarding the behavioral well-being of the chimpanzees.

“(D) A requirement that the chimpanzees be cared for in accordance with the Animal Welfare Act.

“(E) A requirement that the chimpanzees be prevented from breeding.

“(F) A requirement that complete histories be maintained on the health and use in research of the chimpanzees.

“(G) A requirement that the chimpanzees be monitored for the purpose of promptly detecting the presence in the chimpanzees of any condition that may be a threat to the public health or the health of other chimpanzees.

“(H) A requirement that chimpanzees posing such a threat be contained in accordance with applicable recommendations of the Director of the Centers for Disease Control and Prevention.

“(I) A prohibition that none of the chimpanzees may be subjected to euthanasia, except as in the best interests of the chimpanzee involved, as determined by the system and an attending veterinarian.

“(J) A prohibition that the chimpanzees may not be discharged from the system. If any chimpanzee is removed from a sanctuary facility for purposes of research authorized under paragraph (3)(A)(ii), the chimpanzee shall be returned immediately upon the completion of that research. All costs associated with the removal of the chimpanzee from the facility, with the care of the chimpanzee during such absence from the facility, and with the return of the chimpanzee to the facility shall be the responsibility of the entity that obtains approval under such paragraph regarding use of the chimpanzee and removes the chimpanzee from the sanctuary facility.

“(K) A provision that the Secretary may, in the discretion of the Secretary, accept into the system chimpanzees that are not surplus chimpanzees.

“(L) Such additional standards as the Secretary determines to be appropriate.

“(3) RESTRICTIONS REGARDING RESEARCH.—

“(A) IN GENERAL.—For purposes of paragraph (2)(A), standards under paragraph (1) shall provide that a chimpanzee accepted into the sanctuary system may not be used for studies or research, except as provided in clause (i) or (ii), as follows:

“(i) The chimpanzee may be used for noninvasive behavioral studies or medical studies based on information collected during the course of normal veterinary care that is provided for the benefit of the chimpanzee, provided that any such study involves minimal physical and mental harm, pain, distress, and disturbance to the chimpanzee and the social group in which the chimpanzee lives.

“(ii) The chimpanzee may be used in research if—

“(I) the Secretary finds that there are special circumstances in which there is need for that individual, specific chimpanzee (based on that chimpanzee’s prior medical history, prior research protocols, and current status), and there is no chimpanzee with a similar history and current status that is reasonably available among chimpanzees that are not in the sanctuary system;

“(II) the Secretary finds that there are technological or medical advancements that were not available at the time the chimpanzee entered the sanctuary system, and that such advancements can and will be used in the research;

“(III) the Secretary finds that the research is essential to address an important public health need; and

“(IV) the design of the research involves minimal pain and physical harm to the chimpanzee, and otherwise minimizes mental harm, distress, and disturbance to the chimpanzee and the social group in which the chimpanzee lives (including with respect to removal of the chimpanzee from the sanctuary facility involved).

“(B) APPROVAL OF RESEARCH DESIGN.—

“(i) EVALUATION BY SANCTUARY BOARD.—With respect to a proposed use in research of a chimpanzee in the sanctuary system under subparagraph (A)(ii), the board of directors of the nonprofit private entity that receives the contract under subsection (e) shall, after consultation with the head of the sanctuary facility in which the chimpanzee has been placed and with the attending veterinarian, evaluate whether the design of the research meets the conditions described in subparagraph (A)(ii)(IV) and shall submit to the Secretary the findings of the evaluation.

“(ii) ACCEPTANCE OF BOARD FINDINGS.—The Secretary shall accept the findings submitted to the Secretary under clause (i) by the board of directors referred to in such clause unless the Secretary makes a determination that the findings of the board are arbitrary or capricious.

“(iii) PUBLIC PARTICIPATION.—With respect to a proposed use in research of a chimpanzee in the sanctuary system under subparagraph (A)(ii), the proposal shall not be approved until—

“(I) the Secretary publishes in the Federal Register the proposed findings of the Secretary under such subparagraph, the findings of the evaluation by the board under clause (i) of this subparagraph, and the proposed evaluation by the Secretary under clause (ii) of this subparagraph; and

Federal Register, publication.

“(II) the Secretary seeks public comment for a period of not less than 60 days.

Deadline.

“(C) ADDITIONAL RESTRICTION.—For purposes of paragraph (2)(A), a condition for the use in studies or research of a chimpanzee accepted into the sanctuary system is (in addition to conditions under subparagraphs (A) and (B) of this paragraph) that the applicant for such use has not been fined for, or signed a consent decree for, any violation of the Animal Welfare Act.

“(4) NON-FEDERAL CHIMPANZEES OFFERED FOR ACCEPTANCE INTO SYSTEM.—With respect to a chimpanzee that is not owned by the Federal Government and is offered for acceptance into the sanctuary system, standards under paragraph (1) shall include the following:

“(A) A provision that the Secretary may authorize the imposition of a fee for accepting such chimpanzee into the system, except as follows:

“(i) Such a fee may not be imposed for accepting the chimpanzee if, on the day before the date of the enactment of this section, the chimpanzee was owned by the nonprofit private entity that receives the contract under subsection (e) or by any individual sanctuary facility receiving a subcontract or grant under subsection (e)(1).

“(ii) Such a fee may not be imposed for accepting the chimpanzee if the chimpanzee is owned by an entity that operates a primate center, and if the chimpanzee is housed in the primate center pursuant to the program for regional centers for research on primates that is carried out by the National Center for Research Resources.

Any fees collected under this subparagraph are available to the Secretary for the costs of operating the system. Any other fees received by the Secretary for the long-term care of chimpanzees (including any Federal fees that are collected for such purpose and are identified in the report under section 3 of the Chimpanzee Health Improvement, Maintenance, and Protection Act) are available for operating the system, in addition to availability for such other purposes as may be authorized for the use of the fees.

“(B) A provision that the Secretary may deny such chimpanzee acceptance into the system if the capacity of the system is not sufficient to accept the chimpanzee, taking into account the physical capacity of the system;

the financial resources of the system; the number of individuals serving as the staff of the system, including the number of professional staff; the necessity of providing for the safety of the staff and of the public; the necessity of caring for accepted chimpanzees in accordance with the standards under paragraph (1); and such other factors as may be appropriate.

“(C) A provision that the Secretary may deny such chimpanzee acceptance into the system if a complete history of the health and use in research of the chimpanzee is not available to the Secretary.

“(D) Such additional standards as the Secretary determines to be appropriate.

“(e) AWARD OF CONTRACT FOR OPERATION OF SYSTEM.—

“(1) IN GENERAL.—Subject to the availability of funds pursuant to subsection (g), the Secretary shall make an award of a contract to a nonprofit private entity under which the entity has the responsibility of operating (and establishing, as applicable) the sanctuary system and awarding subcontracts or grants to individual sanctuary facilities that meet the standards under subsection (d).

“(F) The entity agrees to comply with standards under subsection (d).

“(G) The entity agrees to make necropsy reports on chimpanzees in the sanctuary system available on a reasonable basis to persons who conduct biomedical or behavioral research, with priority given to such persons who are Federal employees or who receive financial support from the Federal Government for research.

“(H) Such other requirements as the Secretary determines to be appropriate.

(2) to fish for, catch, or possessing Atlantic bluefin tuna located by the use of an aircraft.

SEC. 635. (a) This section may be cited as “Amy Boyer’s Law”. (b) Congress makes the following findings:

(1) The inappropriate display, sale, or use of social security numbers is a significant factor in a growing range of illegal activities, including fraud, identity theft, and, in some cases, stalking and other violent crimes.

(2) Because social security numbers are used to track financial, health care, and other sensitive information about individuals, the inappropriate sale or display of those numbers to the general public can result in serious invasions of individual privacy and facilitate the commission of criminal activity.

(3) The Federal Government requires virtually every individual in the United States to obtain and maintain a social security number in order to pay taxes, to qualify for social security benefits, or to seek employment. An unintended consequence of these requirements is that social security numbers have become tools that can be used to facilitate crime, fraud, and invasions of the privacy of the individuals to whom the numbers are assigned. Because the Federal Government created and maintains the social security number system, and because the Federal Government does not permit persons to exempt themselves from the requirements of that system, it is appropriate for the Federal Government to take steps to stem abuse of the system.

(4) A social security number is simply a sequence of numbers. In no meaningful sense can the number itself impart knowledge or ideas. Persons do not sell or transfer such numbers in order to convey any particularized message, nor to express to the purchaser any ideas, knowledge, or thoughts.

(5) No one should seek to profit from the display or sale to the general public of social security numbers in circumstances that create a substantial risk of physical, emotional, or financial harm to the individuals to whom those numbers are assigned.

(6) Various entities may display, sell, or use social security numbers, including the private sector, the Federal Government and State governments, and Federal and State courts. Whatever the source, the inappropriate display or sale to the general public of social security numbers should be prevented.

(7) Congress should enact legislation that will offer an individual assigned a social security number necessary protection from the display, sale, or purchase of the number in circumstances that might facilitate unlawful conduct or that might otherwise likely result in unfair and deceptive practices.

(c)(1) Part A of title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by adding at the end the following new section:

For purposes of the calculations under this subparagraph, a leased tract or portion of a leased tract shall be excluded if the leased tract or portion is located in a geographic area where a moratorium on new leasing was in effect on January 1, 2000, unless the lease was issued prior to the establishment of the moratorium and was in production on January 1, 2000.

SEC. 1004. APPROVAL OF LOAN GUARANTEES.

(a) AUTHORITY TO APPROVE LOAN GUARANTEES.—Subject to the provisions of this section and consistent with the purpose of this Act, the Board may approve loan guarantees under this Act.

(b) REGULATIONS.—

(1) REQUIREMENTS.—The Administrator (as defined in section 5), under the direction of and for approval by the Board, shall prescribe regulations to implement the provisions of this Act and shall do so not later than 120 days after funds authorized to be appropriated under section 11 have been appropriated in a bill signed into law.

(2) ELEMENTS.—The regulations prescribed under paragraph (1) shall—

(A) set forth the form of any application to be submitted to the Board under this Act;

(B) set forth time periods for the review and consideration by the Board of applications to be submitted to the Board under this Act, and for any other action to be taken by the Board with respect to such applications;

(B) If any provision of this Act or the application of such provision to any person or entity or circumstance is held to be invalid by a court of competent jurisdiction, the remainder of this Act, or the application of such provision to such person or entity or circumstance other than those as to which it is held invalid, shall not be affected thereby.

(c) AUTHORITY LIMITED BY APPROPRIATIONS ACTS.—The Board may approve loan guarantees under this Act only to the extent provided for in advance in appropriations Acts, and the Board may accept credit risk premiums from a non-Federal source in order to cover the cost of a loan guarantee under this Act, to

the extent that appropriations of budget authority are insufficient to cover such costs.

(d) REQUIREMENTS AND CRITERIA APPLICABLE TO APPROVAL.—

(1) IN GENERAL.—The Board shall utilize the underwriting criteria developed under subsection (g), and any relevant information provided by the departments and agencies with which the Board consults under section 3, to determine which loans may be eligible for a loan guarantee under this Act.

(2) PREREQUISITES.—In addition to meeting the underwriting criteria under paragraph (1), a loan may not be guaranteed under this Act unless—

(A) the loan is made to finance the acquisition, improvement, enhancement, construction, deployment, launch, or rehabilitation of the means by which local television broadcast signals will be delivered to a nonserved area or underserved area;

(B) the proceeds of the loan will not be used for operating, advertising, or promotion expenses, or for the acquisition of licenses for the use of spectrum in any competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j));

(C) the proposed project, as determined by the Board in consultation with the National Telecommunications and Information Administration, is not likely to have a substantial adverse impact on competition that outweighs the benefits of improving access to the signals of a local television station in a nonserved area or underserved area and is commercially viable;

(D)(i) the loan—

(I) is provided by any entity engaged in the business of commercial lending—

(aa) if the loan is made in accordance with loan-to-one-borrower and affiliate transaction restrictions to which the entity is subject under applicable law; or

(bb) if item (aa) does not apply, the loan is made only to a borrower that is not an affiliate of the entity and only if the amount of the loan and all outstanding loans by that entity to that borrower and any of its affiliates does not exceed 10 percent of the net equity of the entity; or

(II) is provided by a nonprofit corporation, including the National Rural Utilities Cooperative Finance Corporation, engaged primarily in commercial lending, if the Board determines that such nonprofit corporation has one or more issues of outstanding long-term debt that is rated within the highest 3 rating categories of a nationally recognized statistical rating organization;

(ii) if the loan is provided by a lender described in clause (i)(II) and the Board determines that the making of the loan by such lender will cause a decline in such lender's debt rating as described in that clause, the Board at its discretion may disapprove the loan guarantee on this basis;

(iii) no loan may be made for purposes of this Act by a governmental entity or affiliate thereof, or by the

Federal Agricultural Mortgage Corporation, or any institution supervised by the Office of Federal Housing Enterprise Oversight, the Federal Housing Finance Board, or any affiliate of such entities;

(iv) any loan must have terms, in the judgment of the Board, that are consistent in material respects with the terms of similar obligations in the private capital market;

(v) for purposes of clause (i)(I)(bb), the term “net equity” means the value of the total assets of the entity, less the total liabilities of the entity, as recorded under generally accepted accounting principles for the fiscal quarter ended immediately prior to the date on which the subject loan is approved;

(E) repayment of the loan is required to be made within a term of the lesser of—

(i) 25 years from the date of the execution of the loan; or

(ii) the economically useful life, as determined by the Board or in consultation with persons or entities deemed appropriate by the Board, of the primary assets to be used in the delivery of the signals concerned; and

(F) the loan meets any additional criteria developed under subsection (g).

(3) PROTECTION OF UNITED STATES FINANCIAL INTERESTS.—

The Board may not approve the guarantee of a loan under this Act unless—

(A) the Board has been given documentation, assurances, and access to information, persons, and entities necessary, as determined by the Board, to address issues relevant to the review of the loan by the Board for purposes of this Act; and

(B) the Board makes a determination in writing that—

(i) to the best of its knowledge upon due inquiry, the assets, facilities, or equipment covered by the loan will be utilized economically and efficiently;

(ii) the terms, conditions, security, and schedule and amount of repayments of principal and the payment of interest with respect to the loan protect the financial interests of the United States and are reasonable;

(iii) the value of collateral provided by an applicant is at least equal to the unpaid balance of the loan amount covered by the loan guarantee (the “Amount” for purposes of this clause); and if the value of collateral provided by an applicant is less than the Amount, the additional required collateral is provided by any affiliate of the applicant;

(iv) all necessary and required regulatory and other approvals, spectrum licenses, and delivery permissions have been received for the loan and the project under the loan;

(v) the loan would not be available on reasonable terms and conditions without a loan guarantee under this Act; and

(vi) repayment of the loan can reasonably be expected.

(e) CONSIDERATIONS.—

(1) TYPE OF MARKET.—

(A) PRIORITY CONSIDERATIONS.—To the maximum extent practicable, the Board shall give priority in the approval of loan guarantees under this Act in the following order:

(i) First, to projects that will serve households in nonserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

(ii) Second, to projects that will serve households in underserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

Within each category, the Board shall consider the project's estimated cost per household and shall give priority to those projects that provide the highest quality service at the lowest cost per household.

(B) ADDITIONAL CONSIDERATION.—The Board should give additional consideration to projects that also provide high-speed Internet service.

(C) PROHIBITIONS.—The Board may not approve a loan guarantee under this Act for a project that—

(i) is designed primarily to serve 1 or more of the top 40 designated market areas (as that term is defined in section 122(j) of title 17, United States Code); or

(ii) would alter or remove National Weather Service warnings from local broadcast signals.

(2) OTHER CONSIDERATIONS.—The Board shall consider other factors, which shall include projects that would—

(A) offer a separate tier of local broadcast signals, but for applicable Federal, State, or local laws or regulations;

(B) provide lower projected costs to consumers of such separate tier; and

(C) enable the delivery of local broadcast signals consistent with the purpose of this Act by a means reasonably compatible with existing systems or devices predominantly in use.

(3) FURTHER CONSIDERATION.—In implementing this Act, the Board shall support the use of loan guarantees for projects that would serve households not likely to be served in the absence of loan guarantees under this Act.

(f) GUARANTEE LIMITS.—

(1) LIMITATION ON AGGREGATE VALUE OF LOANS.—The aggregate value of all loans for which loan guarantees are issued under this Act (including the unguaranteed portion of such loans) may not exceed \$1,250,000,000.

(2) **GUARANTEE LEVEL.**—A loan guarantee issued under this Act may not exceed an amount equal to 80 percent of a loan meeting in its entirety the requirements of subsection (d)(2)(A). If only a portion of a loan meets the requirements of that subsection, the Board shall determine that percentage of the loan meeting such requirements (the “applicable portion”) and may issue a loan guarantee in an amount not exceeding 80 percent of the applicable portion.

(g) **UNDERWRITING CRITERIA.**—Within the period provided for under subsection (b)(1), the Board shall, in consultation with the Director of the Office of Management and Budget and an independent public accounting firm, develop underwriting criteria relating to the guarantee of loans that are consistent with the purpose of this Act, including appropriate collateral and cash flow levels for loans guaranteed under this Act, and such other matters as the Board considers appropriate.

(h) **CREDIT RISK PREMIUMS.**—

(1) **ESTABLISHMENT AND ACCEPTANCE.**—

(A) **IN GENERAL.**—The Board may establish and approve the acceptance of credit risk premiums with respect to a loan guarantee under this Act in order to cover the cost, as defined in section 502(5) of the Federal Credit Reform Act of 1990, of the loan guarantee. To the extent that appropriations of budget authority are insufficient to cover the cost, as so determined, of a loan guarantee under this Act, credit risk premiums shall be accepted from a non-Federal source under this subsection on behalf of the applicant for the loan guarantee.

(B) **AUTHORITY LIMITED BY APPROPRIATIONS ACTS.**—Credit risk premiums under this subsection shall be imposed only to the extent provided for in advance in appropriations Acts.

(2) **CREDIT RISK PREMIUM AMOUNT.**—

(A) **IN GENERAL.**—The Board shall determine the amount of any credit risk premium to be accepted with respect to a loan guarantee under this Act on the basis of—

(i) the financial and economic circumstances of the applicant for the loan guarantee, including the amount of collateral offered;

(ii) the proposed schedule of loan disbursements;

(iii) the business plans of the applicant for providing service;

(iv) any financial commitment from a broadcast signal provider; and

(v) the concurrence of the Director of the Office of Management and Budget as to the amount of the credit risk premium.

(B) **PROPORTIONALITY.**—To the extent that appropriations of budget authority are sufficient to cover the cost, as determined under section 502(5) of the Federal Credit Reform Act of 1990, of loan guarantees under this Act, the credit risk premium with respect to each loan guarantee shall be reduced proportionately.

(C) **PAYMENT OF PREMIUMS.**—Credit risk premiums under this subsection shall be paid to an account (the “Escrow Account”) established in the Treasury which shall

accrue interest and such interest shall be retained by the account, subject to subparagraph (D).

(D) DEDUCTIONS FROM ESCROW ACCOUNT.—If a default occurs with respect to any loan guaranteed under this Act and the default is not cured in accordance with the terms of the underlying loan or loan guarantee agreement, the Administrator, in accordance with subsections (i) and (j) of section 5, shall liquidate, or shall cause to be liquidated, all assets collateralizing such loan as to which it has a lien or security interest. Any shortfall between the proceeds of the liquidation net of costs and expenses relating to the liquidation, and the guarantee amount paid pursuant to this Act shall be deducted from funds in the Escrow Account and credited to the Administrator for payment of such shortfall. At such time as determined under subsection (d)(2)(E) of this section when all loans guaranteed under this Act have been repaid or otherwise satisfied in accordance with this Act and the regulations promulgated hereunder, remaining funds in the Escrow Account, if any, shall be refunded, on a pro rata basis, to applicants whose loans guaranteed under this Act were not in default, or where any default was cured in accordance with the terms of the underlying loan or loan guarantee agreement.

(i) LIMITATIONS ON GUARANTEES FOR CERTAIN CABLE OPERATORS.—Notwithstanding any other provision of this Act, no loan guarantee under this Act may be granted or used to provide funds for a project that extends, upgrades, or enhances the services provided over any cable system to an area that, as of the date of the enactment of this Act, is covered by a cable franchise agreement that expressly obligates a cable system operator to serve such area.

(j) JUDICIAL REVIEW.—The decision of the Board to approve or disapprove the making of a loan guarantee under this Act shall not be subject to judicial review.

(k) APPLICABILITY OF APA.—Except as otherwise provided in subsection (j), the provisions of subchapter II of chapter 5 and chapter 7 of title 5, United States Code (commonly referred to as the Administrative Procedure Act), shall apply to actions taken under this Act.

SEC. 1005. ADMINISTRATION OF LOAN GUARANTEES.

(b) SECURITY FOR PROTECTION OF UNITED STATES FINANCIAL INTERESTS.—

(1) TERMS AND CONDITIONS.—An applicant shall agree to such terms and conditions as are satisfactory, in the judgment of the Board, to ensure that, as long as any principal or interest is due and payable on a loan guaranteed under this Act, the applicant—

(A) shall maintain assets, equipment, facilities, and operations on a continuing basis;

(B) shall not make any discretionary dividend payments that impair its ability to repay obligations guaranteed under this Act;

(C) shall remain sufficiently capitalized; and

(D) shall submit to, and cooperate fully with, any audit of the applicant under section 6(a)(2).

(2) COLLATERAL.—

(A) EXISTENCE OF ADEQUATE COLLATERAL.—An applicant shall provide the Board such documentation as is necessary, in the judgment of the Board, to provide satisfactory evidence that appropriate and adequate collateral secures a loan guaranteed under this Act.

(B) FORM OF COLLATERAL.—Collateral required by subparagraph (A) shall consist solely of assets of the applicant, any affiliate of the applicant, or both (whichever the Board considers appropriate), including primary assets to be used in the delivery of signals for which the loan is guaranteed.

(C) REVIEW OF VALUATION.—The value of collateral securing a loan guaranteed under this Act may be reviewed by the Board, and may be adjusted downward by the Board if the Board reasonably believes such adjustment is appropriate.

(3) LIEN ON INTERESTS IN ASSETS.—Upon the Board's approval of a loan guarantee under this Act, the Administrator shall have liens on assets securing the loan, which shall be superior to all other liens on such assets, and the value of the assets (based on a determination satisfactory to the Board) subject to the liens shall be at least equal to the unpaid balance of the loan amount covered by the loan guarantee, or that value approved by the Board under section 4(d)(3)(B)(iii).

(4) PERFECTED SECURITY INTEREST.—With respect to a loan guaranteed under this Act, the Administrator and the lender shall have a perfected security interest in assets securing the loan that are fully sufficient to protect the financial interests of the United States and the lender.

(5) INSURANCE.—In accordance with practices in the private capital market, as determined by the Board, the applicant for a loan guarantee under this Act shall obtain, at its expense, insurance sufficient to protect the financial interests of the United States, as determined by the Board.

(c) ASSIGNMENT OF LOAN GUARANTEES.—The holder of a loan guarantee under this Act may assign the loan guaranteed under this Act in whole or in part, subject to such requirements as the Board may prescribe.

(d) EXPIRATION OF LOAN GUARANTEE UPON STRIPPING.—Notwithstanding subsections (c), (e), and (h), a loan guarantee under this Act shall have no force or effect if any part of the guaranteed portion of the loan is transferred separate and apart from the unguaranteed portion of the loan.

(e) ADJUSTMENT.—The Board may approve the adjustment of any term or condition of a loan guarantee or a loan guaranteed under this Act, including the rate of interest, time of payment of principal or interest, or security requirements only if—

(1) the adjustment is consistent with the financial interests of the United States;

(2) consent has been obtained from the parties to the loan agreement;

(3) the adjustment is consistent with the underwriting criteria developed under section 4(g);

(4) the adjustment does not adversely affect the interest of the Federal Government in the assets or collateral of the applicant;

(5) the adjustment does not adversely affect the ability of the applicant to repay the loan; and

(6) the National Telecommunications and Information Administration has been consulted by the Board regarding the adjustment.

(f) PERFORMANCE SCHEDULES.—

(1) PERFORMANCE SCHEDULES.—An applicant for a loan guarantee under this Act for a project covered by section 4(e)(1) shall enter into stipulated performance schedules with the Administrator with respect to the signals to be provided through the project.

(2) PENALTY.—The Administrator may assess against and collect from an applicant described in paragraph (1) a penalty not to exceed 3 times the interest due on the guaranteed loan of the applicant under this Act if the applicant fails to meet its stipulated performance schedule under that paragraph.

(g) COMPLIANCE.—The Administrator, in cooperation with the Board and as the regulations of the Board may provide, shall enforce compliance by an applicant, and any other party to a loan guarantee for whose benefit assistance under this Act is intended, with the provisions of this Act, any regulations under this Act, and the terms and conditions of the loan guarantee, including through the submittal of such reports and documents as the Board may require in regulations prescribed by the Board and through regular periodic inspections and audits.

(h) COMMERCIAL VALIDITY.—A loan guarantee under this Act shall be incontestable—

(1) in the hands of an applicant on whose behalf the loan guarantee is made, unless the applicant engaged in fraud or misrepresentation in securing the loan guarantee; and

(2) as to any person or entity (or their respective successor in interest) who makes or contracts to make a loan to the applicant for the loan guarantee in reliance thereon, unless such person or entity (or respective successor in interest) engaged in fraud or misrepresentation in making or contracting to make such loan.

(i) DEFAULTS.—The Board shall prescribe regulations governing defaults on loans guaranteed under this Act, including the administration of the payment of guaranteed amounts upon default.

(2) FULLY SATISFYING OBLIGATIONS OWED THE UNITED STATES.—The Administrator may accept property in satisfaction of any sums owed the United States as a result of a default on a loan guaranteed under this Act, but only to the extent that any cash accepted by the Administrator is not sufficient to satisfy fully the sums owed as a result of the default.

(l) BREACH OF CONDITIONS.—The Administrator shall commence a civil action in a court of appropriate jurisdiction to enjoin any activity which the Board finds is in violation of this Act, the regulations under this Act, or any conditions which were duly agreed to, and to secure any other appropriate relief, including relief against any affiliate of the applicant.

(m) ATTACHMENT.—No attachment or execution may be issued against the Administrator or any property in the control of the Administrator pursuant to this Act before the entry of a final judgment (as to which all rights of appeal have expired) by a Federal, State, or other court of competent jurisdiction against the Administrator in a proceeding for such action.

(n) FEES.—

SEC. 219. (a) Congress makes the following findings:

(1) Organ procurement organizations play an important role in the effort to increase organ donation in the United States.

(2) The current process for the certification and recertification of organ procurement organizations conducted by the Department of Health and Human Services has created a level of uncertainty that is interfering with the effectiveness of organ procurement organizations in raising the level of organ donation.

(3) The General Accounting Office, the Institute of Medicine, and the Harvard School of Public Health have identified substantial limitations in the organ procurement organization certification and recertification process and have recommended changes in that process.

(4) The limitations in the recertification process include:

(A) An exclusive reliance on population-based measures of performance that do not account for the potential in the population for organ donation and do not permit consideration of other outcome and process standards that would more accurately reflect the relative capability and performance of each organ procurement organization.

(B) A lack of due process to appeal to the Secretary of Health and Human Services for recertification on either substantive or procedural grounds.

(5) The Secretary of Health and Human Services has the authority under section 1138(b)(1)(A)(i) of the Social Security Act (42 U.S.C. 1320b–8(b)(1)(A)(i)) to extend the period for recertification of an organ procurement organization from 2

to 4 years on the basis of its past practices in order to avoid the inappropriate disruption of the nation's organ system.

(6) The Secretary of Health and Human Services can use the extended period described in paragraph (5) for recertification of all organ procurement organizations to—

(A) develop improved performance measures that would reflect organ donor potential and interim outcomes, and to test these measures to ensure that they accurately measure performance differences among the organ procurement organizations; and

(B) improve the overall certification process by incorporating process as well as outcome performance measures, and developing equitable processes for appeals.

(b) Section 371(b)(1) of the Public Health Service Act (42 U.S.C. 273(b)(1)) is amended—

(1) by redesignating subparagraphs (D) through (G) as subparagraphs (E) through (H), respectively;

(2) by realigning the margin of subparagraph (F) (as so redesignated) so as to align with subparagraph (E) (as so redesignated); and

(3) by inserting after subparagraph (C) the following:

“(D) notwithstanding any other provision of law, has met the other requirements of this section and has been certified or recertified by the Secretary within the previous 4-year period as meeting the performance standards to be a qualified organ procurement organization through a process that either—

“(i) granted certification or recertification within such 4-year period with such certification or recertification in effect as of January 1, 2000, and remaining in effect through the earlier of—

“(I) January 1, 2002; or

“(II) the completion of recertification under the requirements of clause (ii); or

“(ii) is defined through regulations that are promulgated by the Secretary by not later than January 1, 2002, that—

“(I) require recertifications of qualified organ procurement organizations not more frequently than once every 4 years;

“(II) rely on outcome and process performance measures that are based on empirical evidence, obtained through reasonable efforts, of organ donor potential and other related factors in each service area of qualified organ procurement organizations;

“(III) use multiple outcome measures as part of the certification process; and

“(IV) provide for a qualified organ procurement organization to appeal a decertification to the Secretary on substantive and procedural grounds;”.

SEC. 220. (a) In order for the Centers for Disease Control and Prevention to carry out international HIV/AIDS and other infectious disease, chronic and environmental disease, and other health activities abroad during fiscal year 2001, the Secretary of Health and Human Services is authorized to—

(1) utilize the authorities contained in subsection 2(c) of the State Department Basic Authorities Act of 1956, as amended, subject to the limitations set forth in subsection (b), and

(2) enter into reimbursable agreements with the Department of State using any funds appropriated to the Department of Health and Human Services, for the purposes for which the funds were appropriated in accordance with authority granted to the Secretary of Health and Human Services or under authority governing the activities of the Department of State.

(b) In exercising the authority set forth in subsection (a)(1), the Secretary of Health and Human Services—

(1) shall not award contracts for performance of an inherently governmental function; and

(2) shall follow otherwise applicable Federal procurement laws and regulations to the maximum extent practicable.

SEC. 221. Notwithstanding any other provision of law, the Director, National Institutes of Health, may enter into and administer a long-term lease for facilities for the purpose of providing laboratory, office and other space for biomedical and behavioral research at the Bayview Campus in Baltimore, Maryland: *Provided*, That the House and Senate Appropriations Committees will be notified of the terms and conditions of the lease upon its execution.

SEC. 222. Of the funds appropriated in this Act for the National Institutes of Health, \$5,800,000 shall be transferred to the Office of the Secretary, General Departmental Management to support the newly established Office for Human Research Protections.

SEC. 223. Section 487E(a)(1) of the Public Health Service Act is amended by striking “as employees of the National Institutes of Health”.

SEC. 224. Notwithstanding any other provision of law relating to vacancies in offices for which appointments must be made by the President, including any time limitation on serving in an acting capacity, the Acting Director of the National Institutes of Health as of January 12, 2000, may serve in that position until a new Director of the National Institutes of Health is confirmed by the Senate.

SEC. 225. The National Neuroscience Research Center to be constructed on the National Institutes of Health Bethesda campus is hereby named the John Edward Porter Neuroscience Research Center.

This title may be cited as the “Department of Health and Human Services Appropriations Act, 2001”.

SEC. 306. (a) From the amount appropriated for title VI of the Elementary and Secondary Education Act of 1965 in accordance with this section, the Secretary of Education—

(1) shall make available a total of \$6,000,000 to the Secretary of the Interior (on behalf of the Bureau of Indian Affairs) and the outlying areas for activities under this section; and

(2) shall allocate the remainder by providing each State the same percentage of that remainder as it received of the funds allocated to States under section 307(a)(2) of the Department of Education Appropriations Act, 1999.

(b)(1) Each State that receives funds under this section shall distribute 100 percent of such funds to local educational agencies, of which—

(A) 80 percent of such amount shall be allocated to such local educational agencies in proportion to the number of children, aged 5 to 17, who reside in the school district served by such local educational agency from families with incomes below the poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved for the most recent fiscal year for which satisfactory data are available compared to the number of such individuals who reside in the school districts served by all the local educational agencies in the State for that fiscal year; and

(B) 20 percent of such amount shall be allocated to such local educational agencies in accordance with the relative enrollments of children, aged 5 to 17, in public and private nonprofit elementary and secondary schools within the boundaries of such agencies.

(2) Notwithstanding paragraph (1), if the award to a local educational agency under this section is less than the starting salary for a new fully qualified teacher in that agency, who is certified within the State (which may include certification through State or local alternative routes), has a baccalaureate degree, and demonstrates the general knowledge, teaching skills, and subject matter knowledge required to teach in his or her content areas, that agency may use funds under this section to (A) help pay the salary of a full- or part-time teacher hired to reduce class size, which may be in combination with other Federal, State, or local funds; or (B) pay for activities described in subsection (c)(2)(A)(iii) which may be related to teaching in smaller classes.

(c)(1) The basic purpose and intent of this section is to reduce class size with fully qualified teachers. Each local educational agency that receives funds under this section shall use such funds to carry out effective approaches to reducing class size with fully qualified teachers who are certified within the State, including teachers certified through State or local alternative routes, and who demonstrate competency in the areas in which they teach, to improve educational achievement for both regular and special needs children, with particular consideration given to reducing class size in the early elementary grades for which some research has shown class size reduction is most effective.

(2)(A) Each such local educational agency may use funds under this section for—

(i) recruiting (including through the use of signing bonuses, and other financial incentives), hiring, and training fully qualified regular and special education teachers (which may include hiring special education teachers to team-teach with regular teachers in classrooms that contain both children with disabilities and non-disabled children) and teachers of special-needs children who are certified within the State, including teachers certified through State or local alternative routes, have a baccalaureate degree and demonstrate the general knowledge, teaching skills, and subject matter knowledge required to teach in their content areas;

(ii) testing new teachers for academic content knowledge and to meet State certification requirements that are consistent with title II of the Higher Education Act of 1965; and

(iii) providing professional development (which may include such activities as those described in section 2210 of the Elementary and Secondary Education Act of 1965, opportunities for teachers to attend multi-week institutes, such as those made available during the summer months that provide intensive professional development in partnership with local educational agencies and initiatives that promote retention and mentoring), to teachers, including special education teachers and teachers of special-needs children, in order to meet the goal of ensuring that all instructional staff have the subject matter knowledge, teaching knowledge, and teaching skills necessary to teach effectively in the content area or areas in which they provide instruction, consistent with title II of the Higher Education Act of 1965.

(B)(i) Except as provided under clause (ii), a local educational agency may use not more than a total of 25 percent of the award received under this section for activities described in clauses (ii) and (iii) of subparagraph (A).

(ii) A local educational agency in which 10 percent or more of teachers in elementary schools, as defined by section 14101(14) of the Elementary and Secondary Education Act of 1965, have not met applicable State and local certification requirements (including certification through State or local alternative routes), or if such requirements have been waived, may use more than 25 percent of the funds it receives under this section for activities described in subparagraph (A)(iii) to help teachers who are not certified by the State become certified, including through State or local alternative routes, or to help teachers affected by class size reduction who lack sufficient content knowledge to teach effectively in the areas they teach to obtain that knowledge, if the local educational agency notifies the State educational agency of the percentage of the funds that it will use for the purpose described in this clause.

(C) A local educational agency that has already reduced class size in the early grades to 18 or less children (or has already reduced class size to a State or local class size reduction goal that was in effect on the day before the enactment of the Department of Education Appropriations Act, 2000, if that State or local educational agency goal is 20 or fewer children) may use funds received under this section—

(i) to make further class size reductions in grades kindergarten through 3;

(ii) to reduce class size in other grades; or

(iii) to carry out activities to improve teacher quality including professional development.

(D) If a local educational agency has already reduced class size in the early grades to 18 or fewer children and intends to use funds provided under this section to carry out professional development activities, including activities to improve teacher quality, then the State shall make the award under subsection (b) to the local educational agency.

(3) Each such agency shall use funds under this section only to supplement, and not to supplant, State and local funds that,

in the absence of such funds, would otherwise be spent for activities under this section.

(4) No funds made available under this section may be used to increase the salaries or provide benefits, other than participation in professional development and enrichment programs, to teachers who are not hired under this section. Funds under this section may be used to pay the salary of teachers hired under section 307 of the Department of Education Appropriations Act, 1999, or under section 310 of the Department of Education Appropriations Act, 2000.

(d)(1) Each State receiving funds under this section shall report on activities in the State under this section, consistent with section 6202(a)(2) of the Elementary and Secondary Education Act of 1965.
